

RPCG Public Company Limited and its subsidiaries
Notes to interim consolidated financial statements
For the three-month period ended 31 March 2015

1. General information

1.1 The Company's general information

RPCG Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. The Company is principally engaged in the manufacture and trading of fuel oil and petrochemical products. The registered office of the Company, which is the head office, is located at 14th Floor, Shinawatra Tower 3, 1010 Viphavadi Rangsit Road, Khwang Chatuchak, Khet Chatuchak, Bangkok. The Company's branch, which is the plant, is located at 7/3 Pakorn Songkrohrad Road, Map-ta-phut, Muang Rayong, Rayong.

The Company's major shareholder is Petro-Instruments Co., Ltd., which as at 31 March 2015 and 31 December 2014 held 19.72% of the issued and paid-up capital of the Company.

The 2015 Annual General Meeting of the shareholders held on 20 April 2015 approved a resolution to permanently discontinue the refinery business in Rayong province.

Profit (losses) for the three-month periods ended 31 March 2015 and 2014 separated into profit (loss) from continuing operations and profit (loss) from discontinued operations are as below.

1.2 Fundamental accounting assumptions

As discussed in Note 14.5 a) to the financial statements, since the year 2009 the Company has been involved in a significant commercial dispute and outstanding litigation with its major raw material supplier, who stopped delivering raw materials to the Company in February 2012. This forced the Company to cease production, since it has been unable to find new suppliers of these raw materials, while some of its subsidiaries that operate in a related business have also had to cease operations. On 20 April 2015, the 2015 Annual General Meeting of the shareholders approved a resolution to permanently discontinue the refinery business in Rayong province. The Group has therefore suffered consistent operating losses in the years since the cessation of production in 2012. Even though some significant uncertainties that may impact on the ability of the Group to continue as going concern have currently eased as a result of the management plan, the Group has suffered operating losses and as at 31 March 2015 its current liabilities exceeded its current assets by Baht 1,608 million (31 December 2014: Baht 1,184 million). Current liabilities include liabilities under the commercial dispute and outstanding litigation with its major raw material supplier, discussed above. These factors would raise substantial doubt regarding the ability of the Group to continue as going concern, should the outcome of the litigation not be in favour of the Company. However, there remains uncertainty regarding the outcomes of the commercial dispute and outstanding litigation, which cannot be concluded at this time and depend on future judicial proceedings.

These factors would raise substantial doubt regarding the ability of the Group to continue as going concern. However, the Company's management has plans to improve the operations by restructuring the organisation in order to operate investment and holding company business. They believe that they will be able to resolve the issues. The Company's investment plans are as below.

- a) During the year 2014, the Company purchased Baht 900 million of the ordinary shares of Thai Public Port Co., Ltd., which is principally engaged in the rental of oil depot and port business.
- b) The Company's Board of Directors meeting held on 16 February 2015 approved a resolution to purchase 135,564,380 ordinary shares (representing 23.00% of shares held) of Sammakorn Plc. (SAMCO), an associated company, from the existing shareholders at Baht 3.05 per share, or for a total cost of Baht 413 million. The Company used its working capital and loans to finance the investment. The Company purchased the shares in March 2015, and as a result the Company's shareholding in SAMCO increased from 25.25% to 48.25%. SAMCO is principally engaged in the real estate development.

In addition, the Company is seeking business partners and other new business opportunities. For these reasons, the financial statements have been prepared on the going concern basis.

1.3 Basis of preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 (revised 2014) Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, income statement, comprehensive income, changes in shareholders' equity and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

1.4 Basis of consolidation

The consolidated financial statements include the financial statements of RPCG Public Company Limited and its subsidiaries (hereinafter called "the Group"), and have been prepared on the same basis as applied for the consolidated financial statements for the year ended 31 December 2014. There have been no changes in the composition of the subsidiaries in the current period.

1.5 New financial reporting standards

During the period, the Company has adopted the revised and new financial reporting standards issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after 1 January 2015. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Company's financial statements. However, some of these standards involve changes to key principles, which are summarised below.

TAS 19 (revised 2014) Employee Benefits

This revised standard requires that the entity recognise actuarial gains and losses immediately in other comprehensive income while the former standard allowed the entity to recognise such gains and losses immediately in either profit or loss or other comprehensive income, or to recognise them gradually in profit or loss.

This revised standard does not have any impact on the financial statements as the Group already recognises actuarial gains and losses immediately in other comprehensive income.

TFRS 10 Consolidated Financial Statements

TFRS 10 prescribes requirements for the preparation of consolidated financial statements and replaces the content of TAS 27 Consolidated and Separate Financial Statements dealing with consolidated financial statements. This standard changes the principles used in considering whether control exists. Under this standard, an investor is deemed to have control over an investee if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns, even if it holds less than half of the shares or voting rights. This important change requires the management to exercise a lot of judgement when reviewing whether the Group has control over investees and determining which entities have to be included in preparation of the consolidated financial statements.

This standard does not have any impact on the Group's financial statements.

TFRS 12 Disclosure of Interests in Other Entities

This standard stipulates disclosures relating to an entity's interests in subsidiaries, joint arrangements and associates, including structured entities. This standard therefore has no financial impact on the financial statements of the Group.

TFRS 13 Fair Value Measurement

This standard provides guidance on how to measure fair value and stipulates disclosures related to fair value measurement. Entities are to apply the guidance under this standard if they are required by other financial reporting standards to measure their assets or liabilities at fair value. The effects of the adoption of this standard are to be recognised prospectively.

This standard does not have any significant impact on the Group's financial statements.

1.6 Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2014, except for the changes in accounting policies as a result of the adoption of new and revised standards, as discussed in Note 1.5 to the financial statements.

As at 31 March 2015, short-term loans to subsidiaries totaling Baht 399 million (31 December 2014: Baht 449 million) are in the form of unsecured promissory notes with maturities of 6 - 12 months, carrying interest at rate of 3.50% per annum.

As at 31 March 2015 and 31 December 2014, the Company set aside allowance for doubtful debts for the loans to Pure Biodiesel Co., Ltd. amounting to Baht 200 million, as the Company expects that the assets of the subsidiary will not be sufficient to repay the loans. On 1 October 2013, the Company ceased recognising the interest income on the loans to this subsidiary.

As at 31 March 2015 and 31 December 2014, short-term loans to Pure Sammakorn Development Co., Ltd. are unsecured loans totaling Baht 8 million with maturities of 12 months, carrying interest at a rate of 3.50% per annum. The principal and interest are to be repaid in full within May 2015.

The short-term loan to KP Energy Group Co., Ltd. (KPEG) was unsecured loan amounting to Baht 4.5 million with maturity of 1 year, carrying interest at a rate of 5% per annum, with principal and interest to be repaid in full within December 2014. During the year 2014, KPEG requested an extension of the term of the loan to 31 December 2016, and the Company therefore reclassified the loan as a long-term loan. As at 31 March 2015 and 31 December 2014, the Company set aside allowance for doubtful debts for the full amount as the Company expects that the assets of KPEG will not be sufficient to repay the loan. On 1 January 2015, the Company ceased recognising the interest income on the loan to this company.

Sammakorn Plc.

The Company's Board of Directors meeting held on 16 February 2015 approved a resolution to purchase 135,564,380 ordinary shares (representing 23.00% of shares held) of Sammakorn Plc. (SAMCO), an associated company, from the existing shareholders at Baht 3.05 per share, or for a total cost of Baht 413 million. The Company used its working capital and loans to finance the investment. The Company purchased the shares in March 2015, and as a result the Company's shareholding in SAMCO increased from 25.25% to 48.25%. SAMCO is principally engaged in the real estate development.

At present, the Company is in the process of completing its assessment of the fair value of the assets acquired and liabilities assumed at the acquisition date. The assessment process mainly involves the identification and valuation of certain tangible assets and is to be completed within the period of 12 months from the acquisition date as allowed under Thai Financial Reporting Standard 3 (revised 2009) *Business Combinations*. However, the Company has assessed the value of the assets and liabilities using its best estimate of the facts and circumstances that existed as of the acquisition date in order to preliminary allocate costs of the business acquisition to such identifiable items. These estimates may differ significantly from the completed assessment and the Company may need to retrospectively adjust share of profit from investment in associate and investment in associate accounts as from the acquisition date.

Thai Public Port Co., Ltd.

During the year 1997, Chonburi Province (plaintiff) sued a total of 8 unrelated companies and persons (defendants), charging that they had wrongly encroached on state land, exploded rock, and destroyed the natural environment, and claiming damages. Thai Public Port Co., Ltd. (TPP) is not a party in such lawsuit. During the year 2005, Chonburi Provincial Court issued a judgement ordering the defendants to jointly indemnify the damages, and revoking the title deeds held by the defendants, including the title deed to a plot of land owned by the associated company and used as the site of a dock and terminal project. Later, in July 2010, the Court of Appeals amended the judgement, whereby the title deeds held by the defendants, including the title deed to a plot of land owned by the associated company would not be revoked, since such an order exceeded the scope of the lawsuit. However, at present, the case is under consideration of the Supreme Court. The outcome of the dispute cannot be determined and depends on future judicial proceedings.

The Company and its legal advisor view that since TPP is not a party in such lawsuit, TPP should not be bound by the judgement of the Chonburi Provincial Court. The judgement of the Court of First Instance, ordering the revocation of the land title deeds, also exceeded the scope of the lawsuit, in which the plaintiff only demanded damages from the defendants.

During the year 1998, TPP filed an application for a concession to operate on state land, located between TPP's land and the coast (port area), totaling 103 rai. In 2007, the Cabinet approved the concession for a period of 50 years. However, at present it is in the process of preparing the concession contract and issuing the concession to TPP. The working group has passed a resolution to wait for the judgement of the above land case.

6.2 Share of profit (loss) and dividend received

During the three-month periods ended 31 March 2015 and 2014, the Company recognised its share of profit (loss) from investments in associates in the consolidated financial statements and dividend income in the separate financial statements as follows.

14.3 Long-term purchase and sale commitments

In November 2007, a subsidiary (Pure Biodiesel Co., Ltd.) entered into an agreement with Global Power Synergy Co., Ltd. ("GPSC") to purchase steam in a quantity and at a price stipulated in the agreement, which is for a period of 15 years commencing from the facility commercial operation date or 1 October 2008. The agreement can be extended for another 5 years.

On 26 December 2011, the subsidiary entered into a memorandum with GPSC, whereby GPSC will construct a pipe rack and bridge to install a steam pipeline, with a construction price of Baht 58 million, and will compensate the subsidiary an amount of Baht 23 million, for the impact of its inability to supply steam as agreed. This is treated as part of the delay penalty and deducted from construction cost. The construction cost and all interest are to be paid to GPSC on a monthly basis, beginning on the first of the 37th month and to be completed within 72 months after the date GPSC commences supplying steam. The construction cost carries interest at a rate equal to MLR of a bank.

14.4 Guarantees

- a) As at 31 March 2015, there were outstanding bank guarantees of Baht 155 million (31 December 2014: Baht 205 million) issued by banks on behalf of the Group in respect of certain performance bonds as required in the normal course of business. These included letters of guarantee amounting to Baht 150 million (31 December 2014: 200 million) to guarantee payments due to creditors and Baht 5 million (31 December 2014: 5 million) to guarantee electricity use, among others.
- b) As at 31 March 2015 and 31 December 2014, the Company has guaranteed bank credit facilities of subsidiaries amounting to Baht 80 million.

14.5 Litigation and commercial dispute

- a) On 8 August 1995, the Company entered into a purchase agreement with PTT Public Company Limited ("PTT") to purchase condensate residue raw materials that are produced by PTT Global Chemical Public Company Limited ("PTTGC") in a quantity and at a price stipulated in the agreement. The agreement is on an evergreen basis, meaning that there is no specified termination date, and after the primary period of 15 years ends in 2012 it automatically renews for a second period. The agreement stipulated that the Company had to provide a bank guarantee of a certain amount as security against payment for goods purchased. The security will be returned to the Company upon either parties agree to expire the agreement or PTT defaults the agreement.

On 30 September 2009, PTT sent a letter informing the Company of the cancellation of the condensate residue raw materials purchase agreement, and requesting termination of the agreement upon completion of the 15-year term (Primary period) in 2012 even though the Company did not breach the agreement and the cancellation was contrary to the purpose of the agreement. The Company and the Company's legal advisor are of the opinion that the agreement cannot be terminated since it is a long-term reciprocal agreement, and it stipulates the requirement that the Company invest in the construction of a plant to refine condensate residue of a specification that would be sourced only from PTT, and not to resell the raw materials in the same condition they are received from PTT. The agreement therefore includes a stipulation that the agreement is made on an evergreen basis, meaning that there is no specified termination date and the agreement will automatically remain in force upon completion of the first 15-year term (Primary period) and the following periods. In addition, the agreement can only be terminated with the consent of both counterparties or in the event that either party breaches the agreement. The Company has not breached any conditions of the agreement. On this basis, the Company is confident that the agreement cannot be terminated, while PTT has a different opinion. The Company has held discussions with PTT in order to seek a resolution that would be fair to both parties, but no resolution could be found. Consequently, to maintain the rights of the shareholders guaranteed and protected by law, the Company used the judicial process to make a final determination on the matter, and submitted a petition to the Arbitration Office on 3 December 2009. On 27 August 2010, the Company lodged a lawsuit against PTT and PTTGC with the Civil Court, demanding PTT and PTTGC comply with the agreement with no specified termination date. Alternatively, if forcing PTT and PTTGC to comply with the agreement is impossible for any reason, then PTT and PTTGC should pay compensation to the Company totaling Baht 13,805,648,806.91. Consequently, the Company submitted a petition to amend the amount of the claim, to request additional compensation, totaling Baht 29,368,397,797.76. The Arbitration Office allowed the request. A presiding arbitrator has now been appointed to the commercial dispute which is under formal arbitration proceedings and the Civil Court has ordered the ongoing litigation be temporarily struck off in order to await the decision of the Arbitration Office. The outcomes of the arbitration and litigation cannot be determined at this stage and depend on the future judicial process.

Subsequently, on 30 November 2011, during the formal arbitration proceedings, the Company received a raw material delivery plan from PTT, which is part of the normal business cooperation process between the Company and PTT, and found that such plan specified that raw materials would only be delivered until January 2012. PTT has stopped delivering raw materials to the Company since February 2012 in breach of clause 15.5 of the agreement, which specifies that PTT should comply with the agreement until a final arbitration judgement is made. This has forced the Company to cease production since it had no supply of its main raw materials from PTT.

Subsequently, the Company submitted a request to cancel its demand to force PTT to comply with the agreement. On 5 July 2012, the Arbitration Office allowed the Company to cancel such issue.

The above dispute between the Company and PTT caused the Company to exercise its right to submit claims for compensation of not less than Baht 29,000 million to the Arbitration Office (Black dispute No.114/2552) and the Civil Court (Black case No. 3162/2553) due to PTT's breach of agreement, and the Company exercising its rights to undertake court action and arbitration in order to pursue these claims. The Company has exercised lien over the last payment for condensate residue, amounting to Baht 1,518 million (net of bank guarantee) as part of the compensation it is claiming from PTT.

In June 2012, the Company was informed by the Dispute Office, Office of the Court of Justice that PTT had submitted the dispute to the Arbitration Office as Dispute Black Case No. 78/2555, requesting the Company to pay principal together with interest totaling Baht 1,555 million to PTT. At present, the Company submitted statements of dispute and the commercial dispute is under formal arbitration proceedings.

- b) In 2012, the Company was a defendant in labor lawsuits before Sector 2 Labor Court, brought by employees making claims for compensation on the grounds of unfair dismissal. The dismissals were consequence of PTT Public Company Limited stopping delivery of raw materials from February 2012, forcing the Company to cease production indefinitely. The claims for unfair dismissal total Baht 84 million. In July 2013, the Court ordered the Company to pay damages totaling Baht 1.9 million. The Company appealed the judgment of Sector 2 Labor Court in September 2013. On 7 May 2015, the Supreme Court overturned the order of the Court of First Instance and ordered that the case be dismissed, which was the final judgment.

- c) In May 2011, Thai Public Port Co., Ltd., (“TPP”) an associated company, was sued in a civil case brought by a shareholder, who petitioned the court to cancel the registration of the capital reduction and capital increase carried out by the associated company during the year 2003. In August 2011, the Civil Court dismissed the case, and in July 2012, the Appeal Court upheld the judgment of the Civil Court. At present, this case is under consideration by the Supreme Court.

In March 2014, the Directors of TPP were sued by another shareholder of TPP, who petitioned the court to cancel the letter confirming payment of share price and maintenance of share price dated 30 July 2003, the copy of the share register at the time of the Baht 30 million increase in share capital in 2003, and the memorandum of understanding regarding amendment of the debt restructuring agreement dated 7 October 2003. At present, the case is in the process of being considered by the Court of First Instance.

15. Fair value of financial instruments

The Group uses the market approach to measure its assets and liabilities that are required to be measured at fair value by relevant financial reporting standards, except that the cost approach or income approach is used when there is no active market or when a quoted market price is not available.

Fair value hierarchy

In applying the above-mentioned valuation techniques, the Group endeavors to use relevant observable inputs as much as possible. TFRS 13 Fair Value Measurement establishes a fair value hierarchy categorising such inputs into three levels as follows.

Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

(Unaudited but reviewed)

As of 31 March 2015, the Group had the following assets that were measured at fair value using Level 1 of inputs as follows.

16. Events after the reporting period

- a) On 1 April 2015, the Company issued a 12-month promissory note for Baht 200 million. The note carries interest at a rate of 4.00% per annum, which will be repaid together with the principal. The loan was used to make bank overdraft and short-term loan repayments and the Company has mortgaged land with a total book value amounting to Baht 211 million to secure such loan.
- b) The meeting of the Company's Board of Directors held on 14 May 2015 approved the following resolutions.
 - 1) The sale of the Company's key machinery and equipment.
 - 2) The dissolution and liquidation of RPC Global Co., Ltd., a 100%-held subsidiary of the Company.
- c) On 30 April 2015, the Company entered into a purchase and sale agreement for the refinery, machinery and oil depot with an unrelated overseas company (buyer) whereby it will sell the refinery, machinery and various equipment at a net price of Baht 185 million (net of a subsidy for decommissioning costs of Baht 15 million). The buyer agrees to pay the purchase price in six installments within a period of 6 months from the agreement date (by 30 September 2015). However, the buyer is required to settle the outstanding amount immediately upon completion of the decommissioning and movement of assets in accordance with the agreement.

17. Approval of interim financial statements

These interim financial statements were authorised for issue by the Company's Board of Directors on 14 May 2015.
