

RPCG Public Company Limited
Audit report and consolidated financial statements
31 December 2015

Independent Auditor's Report

To the Shareholders of RPCG Public Company Limited

I have audited the accompanying consolidated financial statements of RPCG Public Company Limited and its subsidiaries, which comprise the consolidated statement of financial position as at 31 December 2015, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, and have also audited the separate financial statements of RPCG Public Company Limited for the same period.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with Thai Standards on Auditing. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of RPCG Public Company Limited and its subsidiaries and of RPCG Public Company Limited as at 31 December 2015, and their financial performance and cash flows for the year then ended, in accordance with Thai Financial Reporting Standards.

Emphasis of Matters

I draw attention to the following notes to the financial statements.

- a) As discussed in Notes 1.2 and 37.5 a) to the financial statements, since the year 2009 the Company has been involved in a significant commercial dispute and outstanding litigation with its major raw material supplier, who stopped delivering raw materials to the Company in February 2012. This forced the Company to cease production, since it has been unable to find new suppliers of these raw materials, while some of its subsidiaries that operate in a related business have also had to cease operations. On 16 February 2015, the Company's Board of Directors meeting passed a resolution to propose the permanent discontinuance of the refinery business at Rayong province for approval by the 2015 Annual General Meeting of the shareholders. The Group has therefore suffered consistent operating losses in the years since the cessation of production in 2012. Even though some significant uncertainties that may impact on the ability of the Group to continue as going concern have currently eased as a result of the management plan discussed in Note 1.2 to the financial statements, the Group has suffered operating losses and as at 31 December 2015 its current liabilities exceeded its current assets by Baht 1,518 million (2014: Baht 1,184 million). Current liabilities include liabilities under the commercial dispute and outstanding litigation with its major raw material supplier, discussed above. These factors would raise substantial doubt regarding the ability of the Group to continue as going concern, should the outcome of the litigation not be in favour of the Company. However, there remains uncertainty regarding the outcomes of the commercial dispute and outstanding litigation, which cannot be concluded at this time and depend on future judicial proceedings.

- b) As discussed in Note 15 to the financial statements, during the year 1997 Chonburi Province (plaintiff) sued a total of 8 unrelated companies and persons (defendants), charging that they had wrongly encroached on state land, exploded rock, and destroyed the natural environment, and claiming damages. During the year 2005, Chonburi Provincial Court issued a judgement ordering the defendants to jointly indemnify the damages, and revoking the title deeds held by the defendants, including the title deed to a plot of land owned by an associated company and used as the site of a dock and terminal project. Later, in July 2010, the Court of Appeals amended the judgement, whereby the title deeds held by the defendants, including the title deed to a plot of land owned by the associated company would not be revoked, since such an order exceeded the scope of the lawsuit. However, at present, the case is under consideration of the Supreme Court. The outcome of the dispute cannot be determined and depends on future judicial proceedings.

My opinion is not qualified in respect of these matters.
