Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of RPCG Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of RPCG Public Company Limited and its subsidiaries as at 30 September 2019, the related consolidated statements of income, and comprehensive income for the three-month and nine-month periods then ended, the related consolidated statements of changes in shareholders' equity, and cash flows for the nine-month period then ended, as well as the condensed notes to the consolidated financial statements. I have also reviewed the separate financial information of RPCG Public Company Limited for the same period. Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 *Interim Financial Reporting*.

Emphasis of matter

I draw attention to Notes 1.2, 12 and 20.5 to the consolidated financial statements, since the year 2009 the Company has been involved in a significant commercial disputes and outstanding litigations with its major raw material supplier, who stopped delivering raw materials to the Company in February 2012. This forced the Company to cease production, since it has been unable to find new suppliers of these raw materials, while some of its subsidiaries that operate in a related business have also had to cease operations. On 20 April 2015, the 2015 Annual General Meeting of the shareholders approved a resolution to permanently discontinue the refinery business in Rayong province. The Group has therefore suffered operating losses from refinery business in the years since the cessation of production in 2012. Even though some significant uncertainties that may impact the ability of the Group to continue as a going concern have currently eased as a result of the management's plans to improve the efficiency of the gasoline retail sales business and to operate investment and holding company business as discussed in Note 1.2 to the financial statements, as at 30 September 2019, the Group has current liabilities in excess of its current assets by Baht 744 million (31 December 2018: Baht 1,392 million). Current liabilities include liabilities under the commercial dispute and outstanding litigation with its major raw material supplier, as discussed above. At present, there remains uncertainty regarding the outcomes of the commercial disputes and outstanding litigations, cannot be concluded at this time and depends on future judicial proceedings. These events indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern, if the outcomes of the litigation not be in favour of the Group. My conclusion is not qualified in respect of this matter.
