Total	583,033,234	votes		

Agenda 2: To acknowledge the report of the Company's operational results for the year 2020

The Chairman said at the meeting that before reporting the performance of the year 2020, would like to report the progress of the lawsuits of the Company as follows:

The first case was a continuation of the main case which the arbitral tribunal ruled that PTT breached the raw material purchase agreement must pay damages to the Company. But PTT disagreed and therefore submitted a petition to revoke the arbitral award to the Civil Court and later the Civil Court ruled that the Company won the case. The judge dismissed the petition and PTT filed an appeal to the Supreme Court objected to the judgment of the Civil Court. It is currently being considered by the Supreme Court.

For the second case, was the case that the Company exercise the right of retention. And the Company has filed a request would like to explain further that the arbitral tribunal ruled that the Company use the money withheld. But the Company filed a petition with the Civil Court to revoke the arbitral award and the subsequent Civil Court has sentenced the Company won the case by the judge to revoke the decision of the arbitral tribunal. And PTT filed an appeal to the Supreme Court objected to the judgment of the civil court. The case is currently being considered by the Supreme Court. And the CR-HS case in December 2020 has agreed to a compromise agreement at the Civil Court considered this case to the end. And the Company received compensation for damages with interest of 97.7 million Baht. In addition to business matters, the Company established RPC-JV1 Company Limited with a registered capital of 300 million Baht as a subsidiary in which the Company holds 100% of the shares to do real estate development business.

On the part of Pure Thai Energy Co., Ltd. or PTEC, the Company's core company. In the past year, more and more gas service station branches had been expanded and had better operating results.

The Chairman assigned Ms.Kanokporn Jarukulavanich, Managing Director of Pure Thai Energy Company Limited, to report the performance with detailed reports to be informed as follows:

Ms.Kanokporn Jarukulvanich, Managing Director of Pure Thai Energy Co., Ltd. reported that in the last year as you all knew, we had a crisis of COVID-19 epidemic that affected the business quite a lot. Whether it was a matter of the price of oil that caused the oil price to drop significantly. From the beginning of the year, oil price was about US\$ 80. The oil price dropped to about US\$ 20 lowest in March in combination with Lockdown that does not allow people to travel. The sales of the entire industry had clearly dropped since Lockdown was announced on March 22, 2020. It was evident that the issue of oil price, after falling from US\$ 80 to US\$ 20 or disappearing to 1 in 4. Even if the oil price increased but it was still under US\$ 80, about US\$ 55 impact on oil companies around the world especially ESSO, a partner of the Company that use the Brand to open gas service stations. From the news that ESSO Thailand lost more than 8,000 million Baht, affecting investment in business expansion including the opening of the gas service station as well.

Last year, the number of gas stations across the industry increased by 4%.All brands opened up to 7,459 increase of 4% from a year earlier. Most of them increased at a rate of about 2-10%. It was evident that if the brand ESSO up to maximum 10% while industry average is 4%. In the PTEC has expanded its gas service stations 5 branches from 62 branches to 67 branches or accounted for 8%, it was called one time higher than in the industry. And 67 gas service stations, accounting for about 10% of the total number of ESSO's gas service stations. ESSO closed at 700

branches at the end of the year in which 5 new gas service stations opened. It was evident that we opened all branches during COVID-19 with Lockdown. Whether it is a branch in Chonburi, Khao Khansong, Khlong Luang branch, Maha-Sarakham branch and two other Chonburi branches. It was evident that what we opened from February to June which was in the period of Lockdown. But the Company still has a policy to expand its gas service stations continuously and in the process of expanding. It can be seen that the opening during the past year will focus on the opening phase of the Chonburi area. Which is the EEC area and there is an expansion in the demand for oil at the highest in the country at this time. It was evident that all new branches opened, known as NTI. Sales was more than 500,000 liters in all branches, especially we have one branch was up to 800,000 liters. All of the 67 gas service stations are located in the northeast 24 branches, eastern 13 branches, northern 12 branches, central 9 branches, Bangkok and metropolitan 7 branches and western 2 branches. If you look at the nationwide petrol sales through the gas service stations as I reported that in the past year from the effects of Lockdown to reduce the issue of travel. Causing the demand of the country last year to not grow at all or an increase of 0.2%, or close to the previous year. But at the same time, sales of PTEC were higher due to additional branches and existing branches. The sales increased 19% from the previous year which resulted in sales surpassing 200 million liters last year. It was evident that in terms of total sales. But if you look at the retail only, you can see that sales were up 20% from the previous year. Causing Thruput per branch to almost 250,000. It can be seen that since the Company has converted the brand to ESSO that has signed a contract to partner with ESSO in late 2017, it has started to expand seriously in 2018-2020 over the past 3 years. It was evident that we had a 130% increase in sale volume, Thruput was up to 85% since the change of the brand, which led to higher operating results. And last year we had a very good performance. From before that, the situation with oil price fell in March. The stock loss was quite large, but the opening of a new gas service station during COVID-19 resulted in a profitable result in the past year. The plan of this year, we intend to expand the business of Non-Oil up because in the past we focused on expanding gas service stations to sell oil primarily. This year we are expanding the new business which is coffee, a collaboration between ESSO company and Minor company to open a coffee shop called " Coffee Journey ".If passing some branches of ESSO that may have already started to see some. Pure Thai Energy Co., Ltd. will have 4-10 branches of "Coffee Journey" to be seen. This year it may be affected COVID-19.The starting or expanding more slowly than planned. Which we try to push to make income from Non-Oil more \ proportionate. When compared to income derived mainly from oil, example picture the coffee shop that will open in the ESSO gas service station, which will be a coffee brand named "Coffee Journey", is an exclusive brand. It will be in the ESSO gas service station only. The owner of the brand is Minor company, a large company that has franchises in many brands, from The Pizza Company, Swensen, Burger King, and many other brands that shareholders should know already. This will brand a new coffee that he collaborated with ESSO, which we will open the first branch in Chonburi and Ayutthaya provinces. I would like to inform you all briefly during the crisis, but only this.

The Chairman asked the shareholders, any shareholder wished to inquire about the gas service station. It appeared that no shareholder inquires further. The Chairman asked the meeting to acknowledge the performance of the year 2020. The shareholders do not have to vote in this agenda because it is an agenda for acknowledgement.

Agenda 3: To consider approving the statement financial position, statement of comprehensive income for the year ended on December 31, 2020

The Chairman assigned Mr.Prasit Dheeraratbongkot, Chairman of the Audit Committee to propose the meeting to consider and approve the financial position, statement of comprehensive income for the year ended on December 31, 2020.

Mr.Prasit Dheeraratbongkot said the Audit Committee and the Board of Directors have approved the proposal, the meeting approved the financial statements. Statement of comprehensive income for the year ended December 31, 2020 of the Company, it is correct and complete in accordance with generally accepted accounting standards and sufficient information has been disclosed reasonable and timely. The auditor of the Company has reviewed and certified by expressing an unconditional opinion and noted details appear in the annual report. According to the documents attached to the financial statements of the Company and the Company has submitted its financial statements to the Stock Exchange of Thailand on February 25, 2021 is completed. And on this occasion, we would like the shareholders to consider the Company's financial statements for the year 2020. These financial statements have been audited already by the auditor.

In the consolidated statement of financial position as of December 31, 2020, the Company and its subsidiaries had total assets of 4,645.22 million Baht, an increase of 582 million Baht from the previous year. This was due to current assets in the year 2020 equal to 1,466.47 million Baht, a decrease of 26 million Baht from the previous year due to a decrease in other current assets. And non-current assets in the year 2020 were 3,178.75 million Baht, an increase of 608 million Baht from the previous year. Mainly from the purchase of land for an investment of 147 million Baht and the recognition of rights to assets and liabilities under the lease. In accordance with Thai Financial Reporting Standard No.16, there was an increase in right-of-use assets by 570 million Baht and other non-current assets. (Prepaid rental and land use compensation) decreased by 125.28 million Baht.

As for the total liabilities in the year 2020, the Company was equal to 2,896.71 million Baht, an increase of 566 million Baht from current liabilities. An increase of only 20 million Baht due to an increase in trade accounts payable, fuel cost and gas service station rental debt. And non-current liabilities increased by 516 million Baht from gas service station rental debt and the advance received from being a Brand Wholesaler of ESSO because of the expansion of more branches. As of December 31, 2020, the Company has total assets of 4,645.22 million Baht, total liabilities of 2,896.71 million Baht and total shareholders' equity of 1,748.51 million Baht.

In the year 2020, the income statement of the Company and its subsidiaries, its main income is from the retail sale of petrol through the gas service stations of Pure Thai Energy Company Limited (PTEC), the Company's core company. The total revenue from sales and services amounted to 4,166 million Baht, a decrease of 115 million Baht or equivalent to

a 2.69 percent decrease compared to the year 2019 of 4,281 million Baht. Cost of sales and services decreased in proportion to revenue as well. The cost of sales and services in the year 2020 amounted to 3,813 million Baht, a decrease of 201 million Baht or 5.01 percent compared with cost of sales and services in the year 2019 of 4,014 million Baht. This was due to the declining oil price from the previous year. But the sales volume increased from the previous year. And the Company had selling and administrative expenses in the year 2020 equal to 390 million Baht, an increase of 82 million Baht or 26.63 percent. Compared with the previous year, the selling and administrative expenses were 308 million Baht, which came from selling expenses, staff expenses and gas service station rental.

In addition, in the year 2020, the Company recognized a share of profit from investments in associates of 19 million Baht and received compensation from the lawsuit of 71 million Baht. But in the year 2019, the Company had a profit from the sale of investment in an associate (TPP) of 368 million Baht. Thus, in the year 2020, the Company and its subsidiaries had net profit for the Company of 44.33 million Baht. From the aforementioned information and details shown in the financial statements attached to the annual report for shareholders to consider. If you have any questions, please invite.

Then the Chairman invited the shareholders to raise their questions. When there was no further inquiry from shareholders. The Chairman then asked the meeting to approve the statement of financial position, statement of comprehensive income for the year ended on December 31, 2020. The resolution of this agenda item must be approved by the meeting of shareholders with the majority vote of all shareholders who present and vote. 3. Mr.Termphong Opanaphan C.P.A. Registration No. 4501

The name list (1) is the Company's auditor from the year 2015 to 2020 for a total of 6 years, while the name (2) is the Company's auditor from the year 2013 to 2014 and the name (3) has never reviewed or audited the Company's accounts.

By asking any one of the three auditors above to audit and express their opinions of financial statements of the Company, and in case of the named auditors cannot perform their duties, EY Office Limited will find replacement auditors. The remuneration are set as follows:

	<u>2020</u>	<u>2021</u>	<u>Increase (Decrease)</u>
Audit fee for the Company	THB 825,000	THB 825,000	-
Audit fee for subsidiaries	THB 1,115,000	THB 916,000	(199,000)
Total	THB 1,940,000	THB 1,741,000	THB (199,000)

I would like to explain further as follows: From the original rate that I saw it last year. The actual figure was 1,265,000 Baht. There was one subsidiary company, Super Pure Gas Co., Ltd. or the abbreviation "SPG" in the year 2019-2020, the rate was at 150,000 Baht. But at this time, the company has liquidated and registered the liquidation of SPG already. Therefore it took a figure compared to 1,115,000 Baht as an important comparison.

The remuneration for this year 2021 is decreased from the year 2020 of 199,000 Baht. The above audit fee for the year 2020 excludes non-audit fee of 86,002 Baht.

The Chairman invited the shareholders to raise questions and as there was no shareholder with any question. The Chairman then asked the Meeting to consider approving the appointment of auditors and set the annual audit fee of the year 2021 as proposed. Agenda 8: Consider other matters

The Chairman invited all shareholders to inquire about additional questions.

Mr.Nitipoom Durongwattana, a shareholder inquired that the Company's growth target in the year 2021 in terms of the number of liters to grow. And the branches that will open.

The Chairman said that from the question of Mr.Nitipoom and written questions. Most of the questions were related to Pure Thai Energy Co., Ltd. therefore assigned Ms.Kanokporn Jarukulavanich to answer them.

Ms.Kanokporn Jarukulavanich, Managing Director of Pure Thai Energy Company Limited answered the question that target growth of year 2021 in terms of income, permission is in liters because the amount of Baht may be changed according to the oil price. Which income last year in the amount of Baht was approximately 4,000 million Baht and the number of liters was about 200 million liters. The 2021 year plan expects the number of liters to grow approximately 20% over the year 2020. It will come from two parts which is part of the new branch expansion. It is now opening a new branch and is in the process of construction to open around the middle of the year 2 more branches. If the situation is not COVID-19, there will be more expansion plans. But due to the situation COVID-19 come back one more time. It is possible that the branch expansion will be about 3-5 branches in the next year. And it is expected to increase sales of another 20%. Thruput is expected to surpass close to 300,000 liters, likely about 290,000 liters by the end of the year. It is evident that the continued growth of new branches, mainly in the east, Bangkok and metropolitan. Which are the area with expansion and demand growth now for this year's goals, in terms of oil in the expansion of branches.

As for Non-Oil due to new businesses that are about to open, we try to make the non-oil proportion from very small to less than 1% of the revenue. This year, the intention is to bring the Non-Oil ratio to 1% so that future growth will improve the stability of profitability. The matter of price, the matter of the margin which may cause the profit to be uncertain. Therefore, trying to increase the proportion of Non-Oil to increase, which in the next years, the goal is to try to make Non-Oil go up to 5%, starting from this year.

And from the question, income is rent or GP. It must inform that most of the Non-Oil will be rental that allows vendors to rent space in gas service stations to open stores. We have major branches at Amata Nakorn and our

branches all over the country. Most of them are not GP, except for very few that will be GP such as Big C that will be GP that will come in, but mainly and most of them are rent from renting space.

Mr.Nitipoom Durongwattana, a shareholder inquired about what kind of royalty fee to ESSO would be.

Ms.Kanokporn Jarukulavanich answered the question that it is called the brand value paid to ESSO. It will be per liter that we buy the oil that has not yet been fixed. But it is per liter sold in every liter of oil must have a royalty fee to ESSO.

Mr.Nitipoom Durongwattana, a shareholder further asked when the turnaround plan for our oil business was profitable.

The Chairman added that the Company's oil business has begun to be profitable. Last year, Pure Thai Energy Company Limited had a profit of 46 million Baht, according to Ms Kanokporn has reported.

Mr.Nitipoom Durongwattana, a shareholder further asked if he would like to know the marketing cost of the year 2020 and the direction of the year 2021.

Ms.Kanokporn Jarukulavanich replied that last year was a year where the marketing value was quite good compared to the previous year. The average of our Company is approximately 2 baht because in the condition that we were hit by stock loss in the second quarter. If viewed from the gross margin, it will decrease. That is the impact. If asked what is the trend this year, in terms of marketing costs, it may be slightly lower than last year. If there is no serious impact situation. The margin in terms of market margin, as the world market prices have fluctuated over the past year. And this year many situations are still not stable. There may be conditions that rise and fall, so the market value may have an impact when the price swings a lot. But overall, we think that margin is still good and close than last year, maybe a little less, is still called in a good level. In terms of Pure Thai Energy Co., Ltd., we expect that this year will be another profitable year.

The Chairman said that Mr.Nitipoom's last question asked how much the JV real estate project is worth. When will the project open? And would like to know the progress of the lawsuit and plans to clear the accumulated loss of the Company.

The Chairman responded to the inquiry that RPC JV has just registered the company. There aren't many transactions yet. Currently in the process of purchasing land for project development. There are no plans to launch this year. As for the accumulated loss clearing plan, the Company also manages to make the businesses in the group of the Company have a better performance. It can be seen that both Pure Thai Energy Company Limited and Sammakorn Plc., are profitable to the Company. It is evident that the accumulated losses of the Company remaining about 40 million Baht. If the performance is consistently good as in the past year I think it should wipe out the accumulated loss this year. As for the progress of the case with PTT in both cases as reported above, it is currently being considered by the Supreme Court.

Mr.Niphon Sansaneeyawat further asked if the Company would know when the outcome of the Supreme Court's decision would be.

The Chairman replied that he had asked the lawyer. The lawyer informed that this process should normally take a period of not more than 2-3 years. Now it is more than a year, which the Company could not tell the deadline. It depends on the court proceedings.

The Chairman invited other shareholders to raise questions. However, there was no further questions from the shareholders. The Chairman thanked the shareholders for their time to attend the meeting and offer opinions that are beneficial to the Company. And closed the meeting.

The meeting was adjourned at 14:38 hrs.
