Message from the Chairman

In 2019, the Company to receive revenue streams from two core businesses which are energy and property development. The Company believes that joint-investment and co-management in high potential business will be the business strategy that can provide a superior performance in the long run.

In the property development business, the Company holds a 48.25% stake in Sammakorn Public Company Limited ("SAMCO"), a property development company that focuses on developing single-detached house, townhome, and condominium projects. SAMCO continues to generate sustainable performance. Currently, there are 8 projects, with 4 projects to be launched by the year 2020 to 2021 and also has new projects under development.

And in the business of renting or known as Community Mall under the name "Sammakorn Place" which has 3 projects. In December 2019, SAMCO allowed Bualuang K.E. Retail Leasehold Real Estate Investment Trust (BKER) in investing in all 3 leaseholds for a period of 30 years, worth approximately 1,000 million Baht, causing SAMCO to have more liquidity to invest in other projects that follow the expansion plans and ongoing project development with a reputation for almost 50 years. Believe that SAMCO will be able to develop a sustainable business forever.

For Energy Business Group, Pure Thai Energy Company Limited ("PTEC"), a subsidiary of the Company, after managing gas stations under the Esso (ESSO) as oil contracts and the rights to use the trademark ESSO that caused the strength in the retail gasoline business. There are plans to expand gas stations and marketing plans to continuously meet the needs of customers, which currently have 62 gas stations under the trademark of ESSO.

And in October 2019, the Company sold the ordinary shares of Thai Public Port Company Limited ("TPP"), the business of leasing oil depot and port business 31.50 million shares, 30% of the total registered capital total amount of 1,000 million Baht. So the Company has liquidity to invest in the business in the future that provides good returns. In addition, the Company has a profit from the sale of the investment and also helps to reduce the accumulated losses that cause the Company has the ability to pay dividends to shareholders in the future.

In addition, the case between the Company and PTT, the Civil Court has issued a verdict of Black Case No. Por. 3492/2560 and Black Case No. Por 3789/2560 that the revocation of the decision of the Arbitral Tribunal requiring the Company to pay the final price of condensate residue (CR) with interest. And the Civil Court has issued a judgment of the Black Case No. Por. 3016/2559 and the Black Case No. Por. 6000/2559 to allow PTT to pay damages to the Company. According to the arbitral award allow PTT to pay damages for unlawful termination of the contract with the Company. In both cases PTT can exercise the right to appeal Judgment of the Court of First Instance to the Supreme Court.

The Company is still looking for alternatives to investing in various businesses. That will help strengthen the Company's business, include adjusting the Company's business strategy by focusing on investments that provide good returns in the long run.

On behalf of the Board of Directors, I would like to express sincere gratitude to the shareholders, suppliers, customers, financial institutions, management team, and every employee for your kind supports, companionship, and dedication to help the Company in tough times throughout the year. Please be assured that the Board of Directors and all employees are committed to operate the business with good governance for the shareholders, suppliers, customers, and employees and to turn the business into profitability and generate yields to shareholders as we have done in the past.

Satja Janetumnugul
Chairman of the Board of Directors

Future Projects

The Company has a project to expand the scope of business or investment in the business to create opportunities and add value for the Company for sustainable and stable growth, increasing returns for shareholders and able to further expand the business of the Company and increase the Company's revenue as follows:

1. Energy Investment Project

The Company remains committed to conduct business related to the oil business that the Company has expertise and long experience. In the event that Pure Thai Energy Company Limited, a core company, has signed a cooperation agreement with Esso (Thailand) Public Company Limited ("Esso"). By entering into oil purchase contracts and using the rights of Esso trademark, is the management of gas service stations under the Esso trademark. And the Company has a plan to expand the gas service stations and expand other businesses continuously.

In addition, the Company is interested to invest in renewable energy projects such as biomass power generation, solar power generation or renewable energy in response to government policies to reduce imports of petroleum fuels from abroad by using agricultural products in the country.

2. Real Estate Investment Projects

The Company is interested in real estate investment by having a joint venture with Sammakorn Public Company Limited (SAMCO) to establish Pure Sammakorn Development Company Limited (PSDC) to develop land in Bangkok and the metropolitan area to be a Integrated Community Mall (Community mall) under the name "Sammakorn Place shopping center" which is a modern shopping mall near the community, currently Sammakorn Place shopping centers has 3 branches, Rangsit Khlong 2 Branch, Ramkhamhaeng Branch and Ratchaphruek Branch and still has plans to expand new projects continuously. Later, in the month of August 2016, the Company restructured its shareholding structure by allowing SAMCO to hold 100% of PSDC for the flexibility in management. And in December 2019, SAMCO allowed Bualuang K.E. Retail Leasehold Real Estate Investment Trust (BKER) in investing in all 3 leaseholds for a period of 30 years. In addition, the Company is interested to expand the scope of real estate investment further. By buying shares from former shareholders of Sammakorn Public Company Limited (SAMCO), which engages in property sales by focusing on the development of residential projects for horizontal sales in the category of single houses, town home and high rise which are continuous phases of the development of the existing projects and the development of new projects. Currently, 8 projects are Sammakorn Rangsit Khlong 7 (Prime-7) Project, Sammakorn Rangsit Khlong 7 (Zone 4) Project, Sammakorn Chaipayruek Chaeng Watthana Project, Sammakorn Avenue Ramintra-Wongwaen Project, Sammakorn Avenue Chaiphruet-Wongwaen Project, Chaipayruek Wongwaen 2 Project, Sammakorn Avenue Suvarnabhumi Project, Sammakorn Office Park Project. And there are 4 more projects being developed.

It was of the opinion that it is appropriate and beneficial to the Company by investing in a potential business and participation in management. Moreover, in the future, SAMCO has plans to develop real estate projects in various forms, according to modern trends, which can generate good returns for the Company.

Corporate Governance

The Company perceives the importance to enforce the corporate governance practices in accordance with the Corporate Governance Policy across all levels of employees, the Management, and the Board of Directors. These practices are to ensure operating transparency, promote managerial integrity effectiveness, and efficiency across the firm, for the benefits of shareholders, customers, investors, and the general public, which comprises 5 categories as follows:

1) Rights of Shareholders

The Company's Board of Directors perceives the significance of good corporate governance, the internationally standardized operation, the compliance with SET's regulations, the rights of shareholders and the promotion of their rights thereof. The Audit Committee was set up to supervise the business in various aspects so as to promote favorable corporate culture and corporate governance. This effort is a key factor encouraging the Company to achieve its desirable performances and targeted business objectives. As a result, the shareholders will reap the highest benefit out of this practice. In this regard, the Company aims that the Directors and the employees of all levels hold on to the following values:

- Perform each task with their best knowledge and capability, along with professional practices, honesty, and morality
- Formulate cooperative solidarity in workplace
- Hold firmly to rules and regulations and perform for the benefit of the Company, the country and the society as a whole
- Create mutual interactions and be readily responsive to any circumstances.

The firm has a policy to send the inviting letters for a meeting and accompanying documents to the shareholders at least 21 days earlier, in order to reach the minimum period determined by the law. Moreover, the company has a policy to treat all the shareholders equally. That is, a shareholder can vote independently to elect the board of directors, partake in resolution making, opining, and enquiring the meeting as per the meeting's agenda and proposed issue. Every shareholder has the right and equity to receive correct, well-rounded, and updated information, of which he/she can also check for its verity. The company has a policy to provide more alternatives for the shareholders by permitting an independent director to be entrusted by a shareholder, in the event the latter cannot attend the meeting.

2) Equitable Treatment of Shareholders

The firm has a policy to send the inviting letters for a meeting and accompanying documents to the shareholders at least 7 days earlier, in order to reach the minimum period determined by the law. Moreover, the company has a policy to treat all the shareholders equally. That is, a shareholder can vote independently to elect the board of directors, partake in resolution making, opining, and enquiring the meeting as per the meeting's agenda and proposed issue. Every shareholder has the right and equity to receive correct, well-rounded, and updated information, of which he/she can also check for its verity. The company has a policy to provide more alternatives for the shareholders by permitting an independent director to be entrusted by a shareholder, in the event the latter cannot attend the meeting.

Conflict of Interest

In the past years, the company's directors and management have been considering about the eradication of the interests' conflict with prudence, honesty, and independence under the frame of decent morality. This effort is to achieve the overall benefits of the company, transparency, and protection of personal interest through exploitation. The company is in the process of initiating an instruction bill forbidding the directors, management, and operational staffs not to use the firm and its subsidiary's internal data which are significant and confidential for the pursuit of personal benefits. Besides, if there is any interrelated program, the firm will be complied with the criterion and method notified by the Stock Exchange of Thailand.

3) Roles of Stakeholders

The company is attentive to the right of the beneficiaries in all groups, be they the internal beneficiaries like staffs and the Company's and its subsidiaries' executives, or the external beneficiaries like competitors, creditor, the governmental authority and other related agents. The company actually conducts its operation in compliance with the provisions of law and other relevant regulations in order to maintain the appropriate care of these beneficiaries. In 2019, the Company ensured that all stakeholders were properly treated each stakeholder as follows:

Shareholders	The Company values the rights of shareholders and rights stipulated by the law, such as the right to attend the shareholders' meetings; the right to vote at the meeting; the right to freely express opinions at the shareholders' meetings; the Company also gives shareholders the right, as the owners of the Company, to make suggested and comments on the Company's affairs to the independent.
Employees	The Company truly believes that its employees are the most valuable assets and also support employees to improve their knowledge and skill by providing skills trainings, knowledge sharing workshops and leaning opportunities to all employees for their self-development and career growth with the Company. The Employee Performance Assessment system integrates the employees' values with the corporate objective to ensure that the business success is their mutual benefits.

Customers	The Company is determined to provide customers with maximum benefit in terms of quality and price, to develop and maintain the sustainable relationship with customer, to commitment to the customers.
Partners	The Company is operates its business by upholds promises and committed to fair and equal treatment of its suppliers and business partners to establish mutual trust.
Competitors	The Company is legally competing with the competitors by adhering to the business fairness under the trade competition act. , and not take any action that violates the intellectual property or copyright of competitors, not use dishonest methods to discredit a competitor or no trade secret violations.
Creditors	The Company honestly and strictly adheres to loan agreement, pay attention to the importance of the creditors and strive to keep good relationship with them on the best interest of the Company.

The subcommittee

The board of directors has appointed the subcommittee board to support on corporate governance, as follows:

- The Audit committee with a 3-year term in office. The committee's body consists of 3 persons, all are the independent directors.
- The Nomination and Remuneration Committee with a 3-year term in office. The committee's body consists of 4 persons, all are not the Executive Board and committee's chairman must be the Independent director.

Internal control and audit system

The firm has clearly settled mission, duty, and operational authority of the operational staffs and executives in a form of writing, along with the use of the Company's property for beneficial purposes and the job segmentation of operational staffs, control staffs, and assessment staffs; in order to create check and balance.

The Company has an internal audit office that will do the checking to assure the efficiency and compliance of the firm's main operation and major financial activities with the law and provisions related to the Company. The internal audit office is independent, so it can do fully the check and balance. The internal audit office can directly report the audit result to the audit committee.

Control of the Use of Internal Information

The Company has informed all executives and management of each division about their duties to report the number of shares or securities of the Company that are held by them, their spouse and minor children as well as every change of securities holding occurring as a result of any purchase, sale, transfer or acknowledgement of transfer of securities to the Securities and Exchange Commission according to Clause 59 and Clause 275 of the Securities and the Stock Exchange Act B.E. 2535.

If any directors, executives or employees violates the Company's policy on the sale and purchase of securities by using internal information, those persons shall be punished or disciplined according to the Company's rules and regulations which include warning letter, pay cut, temporary forced leave without pay or employment termination. The level of disciplinary action shall depend on the degree of the violation.

Internal Control System

The Board of Directors and the Executives give priority to continuous internal control system. It covers finance, operation, and compliance with law, regulations, and rules. It is crucial to ensure to reduce business risks. The Company provides appropriate, efficient, and effective risk management. Appropriate resource allocation protects and maintains properties. Risk management policy is defined clearly by assigning the audit committee which is comprised of the independent committee. The committee oversees internal control system, risk management system, and corporate governance. It maintains appropriateness and effectiveness. It assures that the Company complies with regulations and related laws. It prevents conflict of interest. It maintains properties, conducts related documentations to prevent fraud or misconduct.

KPMG Phoomchai Business Advisory Limited as the internal audit department of the Company, the internal audit unit which is independent from management report directly to the Audit Committee in the operation to be efficient and effective with constant monitoring and corrective action on important issues. For various departments of the Company and subsidiaries have appropriate internal control systems and independent as possible. The Company's internal control system which divided into five sections as follows.

1. Organization and Environment

The Company has formulated its business goal and objectives on a clear, possible, and measurable basis. In this regard, it has modified the organizational structure to facilitate job efficiency and flexibility, as well as to correspond with incessantly changing business environments. Hence, the Company has set regulations and penalty rules to prevent the management and employees from engaging in a conflict of interest with the Company. In addition, the policy and operational rules regarding financial transactions, selling, purchasing, and managing were also framed on the basis of fairness to all parties concerned.

2. Risk management

The Company's executives have set up a risk policy and an organization to be in charge of risk management. In this aspect, the risk management committee was founded along with a risk coordinator in each work unit. In addition to providing constant training to the employees on knowledge about risk management, the Company also assigns a person in charge of risk in each work unit, sets a plan and a measure for risk management, evaluates potentially threatening risk factors, formulates a measure for risk reduction, and follows up on risk management procedures of every work unit. The risk management committee will subsequently report its performance to the Audit Committee to be continually forwarded to the Board of Directors. Moreover, the Company has organized training on this matter to employees.

3. Controlling of the Management

The Company has distinctly delineated the scope of authority and responsibility of both the management team and the employees of all levels. The approval scope of each management level is clearly and appropriately determined, and the operations of subsidiaries and affiliated companies are continuously and constantly supervised to comply with the existing legal requirements.

4. Information Technology and Communication System

The Company has utilized the ERP information technology system to efficiently manage purchasing, selling, accounting system, inventory, and permanent assets, so that the IT database be made efficient and handy for the executive's decision making. Moreover, additional developments have been brought in to advance the existing IT system, e.g. the systems for gas station management, close-circuit TV, and video conferencing. These developments aim prominently to facilitate work coordination and supervision, to cover extensive IT usage among employees, and to increase efficiency of communication channels between the Company and its subsidiaries and affiliated firms.

5. Monitoring System

The Board of Directors has conducted a thorough consideration and monitoring on the performance of the Management team. If any deviation from the preset goal is detected, the Board of Directors will have the Executives correct it immediately. In this regard, the Internal Control Committee will report directly to the Audit Committee in due time, especially when those deviations are critical. A report on correction process and progression should also be filed.

The Company's background and major development

RPCG Public Company Limited, formerly known as Rayong Purifier Public Company Limited, was established in 1995 by a joint venture between Thai businessmen with extensive experiences in the petroleum and the petrochemical businesses and Petro-Instruments Co., Ltd. The Company's main business is to refine Condensate Residual (CR), which is a by-product from the production process of PTT Global Chemical Public Company Limited (PTTGC) (formerly known as PTT Aromatics and Refining Public Company Limited (PTTAR)), into high quality petroleum and petrochemical products such as high-speed diesel oil, fuel oil, and petrochemical products for the wholesale and retail businesses. In addition, the Company is granted a fuel-trading license, according to Article 7 of Fuel Trade Act, B.E. 2543 (2000)

Since early 2012, the Company's oil refinery has been shut down as PTT Public Company Limited had broken the Condensate Selling Agreement, which is the Company's main raw material. This was considered as a breach of contract between PTT and the Company. The Company needed to cease the oil refinery operation indefinitely because the Company had lost the main revenue business and there were many operating expenses.

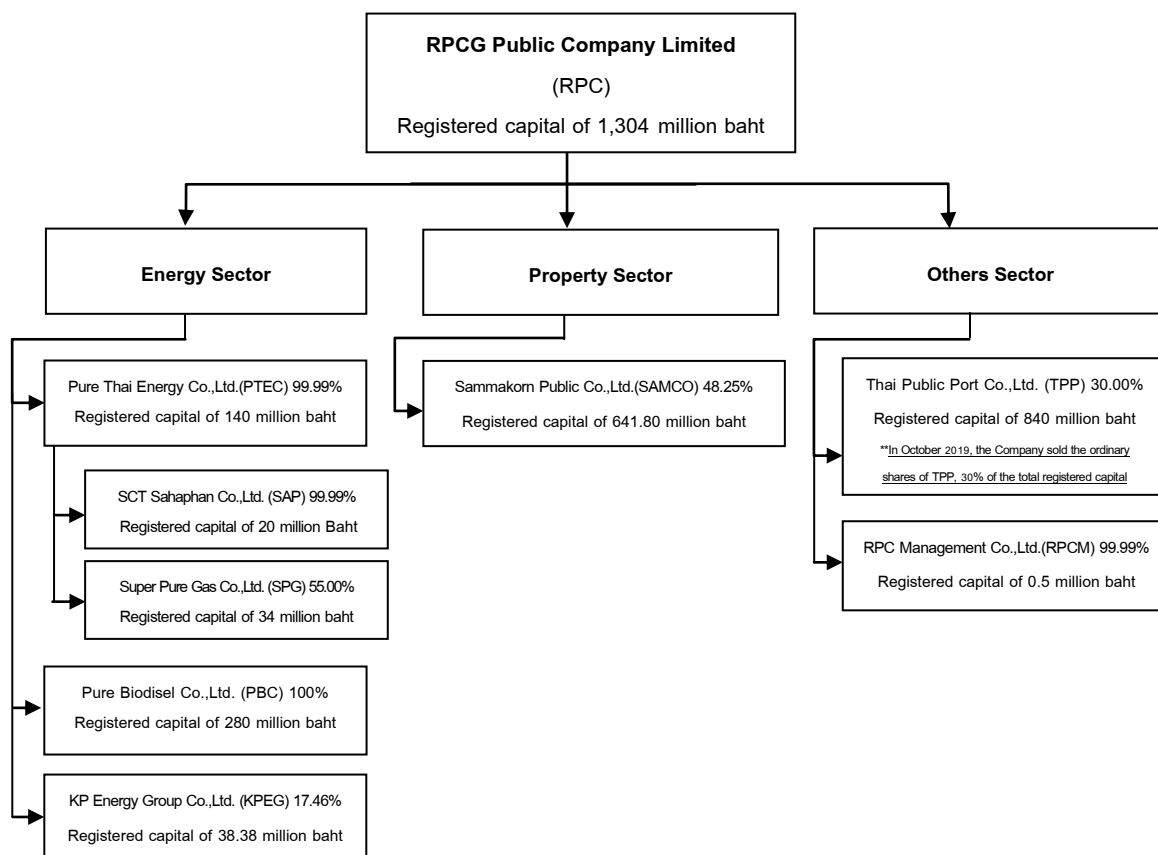

In 2015, the Company has improved business operation and restructure the business to suit the Holding Company environment, which main revenues came from energy business and the Company has discontinued oil refinery in Rayong Province permanently.

Summary of the Company's history and major developments in the past 3 years

- 2017-2018
- In May, the Company received a copy of the arbitral award dated April 27, 2017. The arbitral tribunal have a decree let the Company pay amount of 1,555 million Baht plus interest at the rate of 9.375 per year, calculated from the capital amount 1,518 million Baht, counted from the next date of submission of the dispute (submitted the dispute on May 18, 2012) until the Company have paid to PTT.
The Company would like to clarify that the Company disagree with the arbitral award of the arbitral tribunal. The Company consider that the arbitral award of the arbitral tribunal aforementioned, contradicted the provisions of the law and the Arbitration Act, and contradicted to the contract dispute. The Company disagree with the arbitral award. Therefore, the Company will have the right by law in filing a petition to the Civil Court to revoke of the Arbitration award.
 - In May, the Company was informed from by TPP that the Supreme Court upheld the Court of Appeals judgement not to revoke the title deed to the land. From 1997, Chonburi Province sued a unrelated companies and persons with the Thai Public Port Co., Ltd, charging that they had wrongly encroached on state land, the title deeds held, including the title deed to a plot of land owned by the associated company and used as the site of a dock and terminal project and claiming damages. Thai Public Port Co., Ltd. (TPP) is not a party in such lawsuit. Therefore the lawsuit is finished.

As of December 31, 2019, the Company has registered capital of THB 1,304,664,125 and paid-up capital of THB 1,304,664,125. The holding structure in its subsidiaries and associated companies are as follows:

Business Structure of RPCG Group

Overview of Business Operation for the Group

RPCG Public Company Limited (RPC)

Previously, the Company is engaged in the distillation of condensate residue (CR), a by-product from the production process of PTT Global Chemical Public Company Limited (PTTGC) (formerly known as PTT Aromatics and Refining Public Company Limited (PTTAR)), to produce high quality petroleum and petrochemical products, e.g. high-speed diesel, fuel oil and other petrochemical products. RPC's refinery has a maximum capacity of 17,000 barrels per day or 80 million liters per month. Moreover, RPC also procures unleaded gasoline 91, gasohol 95, gasohol 91, high-speed diesel, and E85 from other refineries to satisfy the increased consumers demand. Besides, RPC also operates one oil depot in Rayong Province to expedite the purchasing and delivery process. Since early 2012, the Company's oil refinery has been shut down as PTT Public Company Limited had broken the Condensate Selling Agreement, which is the Company's main raw material. The Company needed to cease the oil refinery operation indefinitely because the Company had lost the main revenue business and there were many operating expenses. According to the resolution of AGM 2015, held on April 20, 2015 has approved the discontinued oil refinery in Rayong Province permanent.

The Company has improved business operation and restructure the business to suit the Holding Company environment, which main revenues came from energy business are as follows.

Risk Factors

The Company considered a significant risk factor which may affect its business in order to manage its risks efficiently and effectively. So the Company has considered about Risk Management and Internal Control. The Company has increased its focus on Risk Management and Monitoring of Risk Management Process so that implementation consistent with Good Corporate Governance Policy.

Nevertheless, the Company has originates its risk evaluation process on the current global status, at this moment some other risks might not yet be mentioned due to the uncontrollable external sources which might affect the Company in the future.

1) Risks from fluctuation of refined oil prices

The Company deals directly with refined oil and various refined oil sellers, thus, the possibility of the fluctuation of refined oil prices are according to the following factors;

- Global economic and politic unrest, specifically, the members of Middle East countries; the main producers of natural gas and crude oil
- Global and regional level of demand and supply.
- Government regulations; national level and global level
- Weather condition

Due to the fact that all mentioned factors are caused by the uncontrollable external sources, and the selling price depends on the fluctuation of refined oil prices. The effect on financial status and the operation results might also affect the selling quantity and the value of the inventories.

Nevertheless, the Company manages the situation in the positive manner by utilizing great skills from the experienced group of employees regularly analyzes the situation and keeps close attention to the refined oil prices. In addition, the specializations in managing and acquiring refined oil in fair deals as well as the good management in price positioning in the market are achieved excellently. Furthermore, the main purpose of the refined oil inventories are assigned specifically for trading purpose for each part of the country, and the arbitrate trading in form of large quantity of refined oil inventories are not the policy of the Company. Furthermore, the Company does not have a significant effect on the fluctuation of refined oil prices due to the majority of consumers are regular buyers who purchase daily.

2) Risks from government intervention in market prices

The possibility caused by the government intervention in national refined oil price structure, especially, during the peak of the fluctuation of refined oil prices and petroleum price in global market. The intervention from the government may affect the operations, financial statuses and the Company operating results.

Although, the Company measures that there are some risk from government intervention, but market prices may not have the effect on the Company. The reason behind this is the intervention policy is only applied temporary. The government shall adjust the price to consumers and vendors for the petroleum retail

price to stay at the same purchasing rate from the refinery or other suppliers including the marketing expenditures. In addition, when the tax rate, marketing expenditures and other contributed capital are unchanged the petroleum retail price will be adjusted to stay at the same rate at the refinery in order to aid the consumers and vendors during the increase of petroleum price in the global market.

3) Risks from man-made disasters and natural disasters

As the Company involvement is mainly in the petroleum business, specifically, its subsidiaries as petroleum service stations all around the country. Therefore, the probability of various types of disasters is high. Although, the natural disasters such as conflagration, flood, and etc. are unavoidable and unpreventable, the Company is well aware and well prepared for any circumstances in order to prevent the cause loss of lives and damage to properties and businesses.

The Company acknowledges the prevention for these types of risk by applying for the all risks insurance which focuses primary on the production assets which can be filed the claim when the accidents or disasters occurred. Furthermore, the Company also recognizes the importance of the emergency training for its employees by conducting the training regularly in order to be prepared for the unexpected disasters as a contingency plan.

Risks from lawsuit cases

This risks arise from the dispute of the Black Case No. 114/2552, the dispute of the Black Case No. 78/2555 of The Thai Arbitration Institute, the civil case of black case index no. 3162/2553 of the Civil Court which the event occurred from PTT Public Company Limited (PTT) notified to terminate the Condensate Residue Purchase Agreement (CR) and completely stopped to supply the Condensate Residue (CR) as raw materials, The dispute of the Black Case No. 114/2552, the Company received an arbitration award dated 25 March 2016, pursuant to which the arbitral tribunal rendered an award by a majority vote to order PTT to pay damages for the unlawful termination of the agreement with the Company in the amount of Baht 390 million per annum starting from 1 February 2012 until the date on which the arbitral tribunal rendered the arbitration award, together with 7.5% interest per annum on such amount of damages calculated on the date on which the arbitral tribunal rendered the arbitration award until PTT makes payment in full to the Company. On June 2016 PTT petitioned the court to revoke the award (Black Case No. Por.3016/2559). On December 2016, the Company filed a petition with the Civil Court to seek enforcement of the above arbitration award (Black Case No. Por.6000/2559). Later, in September 2019, the Civil Court issued a verdict, PTT compensates the Company for damages in accordance with the above arbitral award, which PTT has the right to appeal judgment of the Court of First Instance to the Supreme Court following the law.

As for the dispute, the Black Case No. 78/2555, on 27 April 2017, the Arbitral Tribunal has a ruling that the Company must pay for raw materials for condensate residue. The final installment in the amount of 1,555 million Baht with interest rate of 9.375 percent per annum, calculated from the principal amount of 1,518 million Baht,

counting from the date of submission of the dispute (May 18, 2012) until payment is made to PTT. The Company disagreed with the said ruling. And on 25 July 2017, the Company exercised the legal right to file a request for the Civil Court to withdraw the award of the Arbitral Tribunal. The case is Black Case Number Por. 3492/2560. Later, in September 2017, PTT submitted a petition to the Civil Court requesting the enforcement of the arbitral award. The case is Black Case Number Por. 3789/2560. The Company therefore filed an objection to the enforcement request of PTT, and in March 2019, the Civil Court issued an order revoking the Arbitral Tribunal's decision and dismissing PTT's request, which PTT exercised its right to appeal against the Civil Court's judgment to the Supreme Court in August 2019.

In addition, the Company submitted the dispute to the Arbitration Institute, in the case that PTT sent CR to the Company not in accordance with the terms of the contract, causing the Company damaged. The Company therefore claimed for damages. The case is Black Number 117/2559. Later on 26 December 2019, the Arbitral Tribunal issued its verdict PTT compensates the Company for damages during the year 2006, amounting to 26,700,000 Baht including interest at the rate of 7.5% per annum from the date of 13 September 2016 onwards until the payment is made to the Company, and compensate the Company for damages during the year 2010, in the amount of 37,275,922.32 Baht with interest from 9 November 2011 onwards until payment is made to the Company. If PTT does not agree with the award of the Arbitral Tribunal, PTT has the right to file a request to the Civil Court to revoke the Arbitral Tribunal within 90 days from the date of receiving the copy of the award. And the Company still has the right to fight the case with PTT in the Civil Court.

The commercial dispute cases currently being considered by the Court, are not yet determined. It depends on the future judicial process.

Risks of the future business

The risks of future business has arisen from PTT Public Company Limited (PTT) who is the only one supplier in distribution of raw materials, failed to perform the obligations under the Agreement without default in performances by the Company. The Purchase Agreement is made on a long-term basis with no predetermined end date, and does not specify the period of termination (Evergreen Basis). This issues caused the Company filed the case to Arbitration and Civil Court, respectively. During the arbitration hearing, PTT Public Company Limited (PTT) stopped to supply the raw materials to the Company since the date February 1, 2012 onwards, which it is considered in default under Clause 15.5 specified that even if the dispute between the parties has not been resolved, PTT Public Company Limited (PTT) as the party, has obligated to perform its obligations under the Agreement until the final arbitration award will be made by the Arbitrators. These issues have caused the Company to stop its production for the indefinite period and lost the main income.

To compensate for loss of the main income, the Company is preparing feasibility studies of any projects, whether fuel business and other businesses. At present, the Company has invested in real estate project.

The Board of Directors' Responsibility for Financial Statement's Report

The Board of Directors is responsible for the financial statement and information of RPCG Public Company Limited and its subsidiaries as appeared in the annual report. The financial statements was prepared in accordance with Thai Financial Reporting Standards using appropriate accounting policies with consistent practices. The judgment thereof was exercised cautiously with the best applicable estimates and adequate disclosure of important information in the financial statements remarks.

The Board of Directors has provided and maintained the efficient internal control system, to assure that the accounting records be thorough, accurate, and adequate to keep all assets, and to be notified of possible weaknesses to assure that the financial statements are free of material misstatements.

In this aspect, the Board of Directors has authorized the Audit Committee comprising non-executive committees to supervise the quality of financial statement, and the internal control system. Their opinion thereof appears in the report of Audit Committee.

The Board of Directors perceived that the Company's overall internal control system is in the acceptable and reliable level as appearing in the financial statements of the Company and its subsidiaries as of 31 December 2019.

Mr. Satja Janetumnugul

Chairman of the Board of Directors

The Audit Committee's Report

The Audit Committee (the "Committee") performed its duties in accordance with the scope of duties and responsibilities set forth in the Audit Committee Charter, which complies with the regulations of The Stock Exchange of Thailand and authorized by the Board of Directors (the "Board").

For the accounting period of 2019, the Committee has performed its duties independently. The Audit Committee convened 7 meetings, including one meeting between the Committee and the auditors without the presence of the Managements representative to consider the system of internal controls and the 2019 external audit plan of the Company and its subsidiaries as appropriate to discuss the following issues:

1. Financial Statements : The Audit Committee has reviewed the quarterly and annual financial statements 2019 of the Company and its subsidiaries collaborate with management and auditors by inquiring and listening to the clarification in regard to accuracy complete details of financial statements and sufficiency in disclosing information. The Audit Committee agreed with the auditor that the said financial statements were correct as they

should be emphasized in material matters according to accounting standards. And the disclosure of important information adequately in the notes to the financial statements and the auditor reviews the financial statements unconditionally. There is an emphasis on significant uncertainties regarding operations, cause from the Company has trade disputes and lawsuits with PTT Public Company Limited, the main raw material supplier of the Company which is in the process of justice and the outcome of the said dispute and lawsuit cannot be determined yet.

2. Related Transactions: The Audit Committee considered the disclosure of Related Transactions and other transactions that may cause a conflict of interest, which the external auditor had expressed an opinion that the Company's transactions with related companies are disclosed in the Financial Statements and recorded in the notes to the Financial Statements. The Committee agreed with the opinion of the external auditor. Furthermore, the Committee expressed that the transactions were of sound business practices and for the best interest of the Company; and the disclosures were accurate, adequate, and in compliance with related laws and the regulations of the Stock Exchange of Thailand.

3. Internal control and risk management systems: The Audit Committee considered quarterly internal audit reports and progress, according to the approved plan as well as giving suggestions to KPMG Phoomchai Business Advisory Company Limited, the internal audit department of the Company, directly to the Audit Committee in the operation to be efficient and effective with constant monitoring and corrective action on important issues. For various departments of the Company and subsidiaries have appropriate internal control systems including reviewing policies, guidelines for risk management in accordance with the current situation of the Company in both the litigation and future business operations. The Audit Committee is of the opinion that the Company's internal control and risk management is adequate, effective and independent as possible.

In the year 2019, the Company entered into an agreement to sell all the common shares of Thai Company Limited which the Company holds to Siam LNG Company Limited (a subsidiary of Siamgas and Petrochemicals Public Company Limited) which the Audit Committee has approved the said transaction investment in TPP tends to increase the risk of investment impairment. Entering into the said transaction therefore reduces the risk of investment impairment and helps increase the financial liquidity and financial status of the Company.

4. Compliance with legal requirement: The Audit Committee has considered the compliance with the Securities and Exchange Act. Rules and regulations of the Securities and Exchange Commission, and the Stock Exchange of Thailand, and laws related to the Company's business and subsidiaries. The Audit Committee is of the opinion that the Company has complied with relevant laws and did not find any significant issues.

In this regard, the sale of TPP common shares as described in article 3 is considered an asset disposal transaction as announced by the Capital Market Supervisory Board and the announcement of the Stock Exchange of Thailand. The Audit Committee has considered the significant terms and conditions of the said

sales of common share agreements for the Company to prepare a report and disclose complete information regarding the aforementioned transaction to shareholders in accordance with relevant announcements.

5. Selection and appointment of auditors: The Audit Committee considered the performance in the past year, including knowledge, experience, credibility and sufficient resources along with evaluating the independence and quality of the auditors during the past year. For the auditor's remuneration considered the scope of responsibilities of the auditor, compensation of other office auditors deems appropriate therefore proposing to the Board of Directors for approval at the shareholders' meeting by selecting EY Office Limited as the Company's auditor for the year 2019.

6. Good Corporate Governance: The Company recognized the importance of and continued to operate within the Good Corporate Governance principles. The Audit Committee ensured that the Company accurately and adequately disclosed relevant information and promoted good corporate governance, transparency, and ethics; thus creating confidence among of shareholders, investors, employees and other parties. The Committee also reviewed the method of reporting the interest of the Company's directors and management in accordance with the Securities and Exchange Act.

In summary, the Committee has performed duties as described in the Audit Committee Charter which was approved by the Board. Furthermore, the Committee considered that the Company recognized the importance of good corporate governance which resulted in adequate and effective system of internal controls without any defects; appropriate and effective risk management process; and the Company's Financial Statement and information disclosure were accurate, completed, and in accordance with generally accepted accounting principles. The Company accurately and completely disclosed information concerning related transactions that might lead to conflict of interest; and adhered to related laws, rules, regulations, and other related requirements.

Please be informed accordingly.

On behalf of the Audit Committee

(Mr. Prasit Dheeraratbongkot)

Chairman of the Audit Committee

Independent Auditor's Report

To the Shareholders of RPCG Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of RPCG Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2019, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of RPCG Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of RPCG Public Company Limited and its subsidiaries and of RPCG Public Company Limited as at 31 December 2019, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the *Code of Ethics for Professional Accountants* as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Material Uncertainty Related to Going Concern

I draw attention to Notes 1.2, 20 and 36.5 of the consolidated financial statements, since the year 2009 the Company has been involved in a significant commercial disputes and outstanding litigations with its major raw material supplier, who stopped delivering raw materials to the Company in February 2012. This forced the Company to cease production, since it has been unable to find new suppliers of these raw materials, while some of its subsidiaries that operate in a related business have also had to cease operations. On 20 April 2015, the 2015 Annual General Meeting of the shareholders passed a resolution to permanently discontinue the refinery business in Rayong province. The Group has therefore suffered operating losses from refinery business in the years since the cessation of production in 2012. Even though some significant uncertainties that may impact the ability of the Group to continue as a going concern have currently eased as a result of the management's plans to improve the efficiency of the gasoline retail sales business and to operate investment and holding company business as discussed in Note 1.2 to the financial statements, as at 31 December 2019, the Group has current liabilities in excess of its current assets by Baht 406 million (2018: Baht 1,392 million). Current liabilities include liabilities under the commercial disputes and outstanding litigations with its major raw material supplier, as discussed above. At present, there remains uncertainty regarding the outcomes of the commercial disputes and outstanding litigations, cannot be concluded at this time and depends on future judicial proceedings. These events indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern, if the outcomes of the litigation not be in favour of the Group. My opinion is not modified in respect of this matter.

Key Audit Matter

Key audit matter is the matter that, in my professional judgement, was of most significance in my audit of the financial statements of the current period. This matter was addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on this matter.

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to this matter. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matter below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fairly presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matter. I describe this matter in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

Poonard Paچارoen

RPCG Public Company Limited and its subsidiaries

Notes to consolidated financial statements

For the year ended 31 December 2019

1. General information

1.1 Corporate information

RPCG Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. The Company is principally engaged in the investment and holding company business. The registered office of the Company, which is the head office, is located at 86/2 Sammakorn Place, Ramkhamhaeng Road, Saphan Sung, Bangkok. The Company’s branch, which is the plant, is located at 7/3 Pakorn Songkrohrad Road, Map-ta-phut, Muang Rayong, Rayong.

The Company’s major shareholder is Petro-Instruments Co., Ltd., which as at 31 December 2019 and 2018 held 19.72% of the issued and paid-up capital of the Company.

1.2 Fundamental accounting assumptions

As discussed in Note 36.5 to the financial statements, since the year 2009 the Company has been involved in significant commercial disputes and outstanding litigations with its major raw material supplier, who stopped delivering raw materials to the Company in February 2012. This forced the Company to cease production, since it has been unable to find new suppliers of these raw materials, while some of its subsidiaries that operate in a related business have also had to cease operations. On 20 April 2015, the 2015 Annual General Meeting of the shareholders approved a resolution to permanently discontinue the refinery business in Rayong province. The Group has therefore suffered operating losses from refinery business in the years since the cessation of production in 2012. Later, in March 2016, an arbitral tribunal rendered an award by a majority vote whereby the major supplier (litigant) was to pay damages for the unlawful termination of its agreement with the Company, and the Company was to receive certain compensation for damages, the litigant filed a petition with the Civil Court to revoke the arbitration award and the Company filed a petition with the Civil Court to seek enforcement of that award. In September 2019, the Civil Court ordered the litigant to pay damages to the Company in accordance with the arbitral award and the Company has filed the enforcement request according to the judgement of the Civil Court. The litigant is in the process of filing a petition for an extension of the period to file an appeal with the Supreme Court. Even though some significant uncertainties that may impact the ability of the Group to continue as a going concern have currently eased as a result of the management’s plans to

improve the efficiency of the gasoline retail sales business and to operate investment and holding company business, as at 31 December 2019, the Group has current liabilities in excess of its current assets by Baht 406 million (2018: Baht 1,392 million). Current liabilities include liabilities under the commercial disputes and outstanding litigations with its major raw material supplier. In April 2017, the arbitral tribunal rendered an award to order the Company to make a final payment for condensate residue to the major supplier. However, the Company did not agree with the arbitration award. The Company exercised its legal right to filed a petition with the Civil Court to revoke the award. In March 2019, the Civil Court ordered the revocation of the arbitration award. However, the major supplier disagreed with the judgement and exercised its legal right to file and appeal with the Supreme Court in August 2019. At present, there remains uncertainty regarding the outcomes of the commercial disputes and outstanding litigations, cannot be concluded at this time and depends on future judicial proceedings. These events indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern, if the outcomes of the litigation not be in favour to the Group.

2. Basis of preparation

- 2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development dated 11 October 2016, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

2.2 Basis of consolidation

- a) The consolidated financial statements include the financial statements of RPCG Public Company Limited (“the Company”) and the following subsidiary companies (“the subsidiaries”).

Company's name	Nature of business	Place of incorporation	Percentage of Shareholding	
			2019	2018
			%	%
Pure Biodiesel Co., Ltd.*	Manufacture and distribution of biodiesel (B100) and crude glycerin	Thailand	100	100
Pure Thai Energy Co., Ltd. and its subsidiaries	Trading of fuel oil	Thailand	100	100
RPC Management Co., Ltd.*	Systems management	Thailand	100	100
<u>Subsidiaries directly held by Pure Thai Energy Co., Ltd.</u>				
SCT Sahaphan Co., Ltd.	Distribution and maintenance of gasoline station equipment	Thailand	100	100
Super Pure Gas Co., Ltd.	Trading of liquefied petroleum gas	Thailand	55	55

* Business suspended as at 31 December 2019 and 2018

- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated as from the date of acquisition, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) The financial statements of the subsidiaries are prepared using the same significant accounting policies as the Company.
- e) Material balances and transactions between the Group have been eliminated from the consolidated financial statements.
- f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated income statement and within equity in the consolidated statement of financial position.

2.3 The separate financial statements present investments in subsidiaries and associates under the cost method.

3. New financial reporting standards

a. Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised (revised 2018) and new financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2019. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements. However, the new standard involves changes to key principles, which are summarised below.

TFRS 15 Revenue from Contracts with Customers

TFRS 15 supersedes the following accounting standards together with related interpretations.

TAS 11 (revised 2017)	Construction Contracts
TAS 18 (revised 2017)	Revenue
TSIC 31 (revised 2017)	Revenue - Barter Transactions Involving Advertising Services
TFRIC 13 (revised 2017)	Customer Loyalty Programmes
TFRIC 15 (revised 2017)	Agreements for the Construction of Real Estate
TFRIC 18 (revised 2017)	Transfers of Assets from Customers

Entities are to apply this standard to all contracts with customers unless those contracts fall within the scope of other standards. The standard establishes a five-step model to account for revenue arising from contracts with customers, with revenue being recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model.

The Group has adopted TFRS 15, which certain items have been reclassified in the prior period's financial statements presented as comparative information. The reclassification is described in Note 4 to the financial statements.

b. Financial reporting standards that will be effective for fiscal years beginning on or after 1 January 2020

The Federation of Accounting Professions issued a number of new and revised financial reporting standards and interpretations, which are effective for fiscal years beginning on or after 1 January 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards except the following new standards which involve changes to key principles, which are summarised below.

Financial reporting standards related to financial instruments

A set of TFRSs related to financial instruments consists of five accounting standards and interpretations, as follows.

Financial reporting standards

TFRS 7	Financial Instruments: Disclosures
TFRS 9	Financial Instruments

Accounting standard

TAS 32	Financial Instruments: Presentation
--------	-------------------------------------

Financial Reporting Standard Interpretations

TFRIC 16	Hedges of a Net Investment in a Foreign Operation
TFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortised cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments. When the TFRSs related to financial instruments are effective, some accounting standards, interpretations and guidance which are currently effective will be cancelled.

The management of the Group expects the adoption of these accounting standards to result in the recognition of credit losses. The Group is to recognise an allowance for expected credit losses on its financial assets, and it is no longer necessary for a credit-impaired event to have occurred. The Group applies the simplified approach to consider impairment of trade receivables. The management of the Group is currently evaluating the impact of these standards on the financial statements in the year when they are adopted.

TFRS 16 Leases

TFRS 16 supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles to those used under TAS 17.

The management of the Group expects the effect of the adoption of this accounting standard to the statement of financial position as at 1 January 2020 to be to increase the Group's assets and liabilities by approximately Baht 456 million (separate financial statements: nil).

4. Reclassification arising from changes in accounting policies as a result of the adoption of new financial reporting standard

As described in Note 3 (a) to the financial statements, during the current period, the Group has adopted TFRS 15, which certain items have been reclassified in the prior period's financial statements presented as comparative information.

The amounts of the adjustments affecting the reclassification in the statement of income for the year ended 31 December 2018, with no effect to previously reported net loss or shareholders' equity, are summarised below.

(Unit: Thousand Baht)

	Consolidated financial statements		
	Previous accounting policy	Increase (decrease)	TFRS 15
Statement of income			
Profit or loss			
Cost of sales	3,043,680	13,326	3,057,006
Selling and distribution expenses	79,081	(13,326)	65,755
Loss for the year	(9,040)	-	(9,040)

5. Significant accounting policies

5.1 Revenue recognition

Sales of goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. Revenue is measured at the amount of the consideration received or receivable, excluding value added tax, of goods supplied after deducting discounts.

Revenues from construction services

Revenues from construction services are recognised over time when services have been rendered taking into account the stage of completion, measuring based on comparison of actual construction costs incurred up to the end of the year and the total anticipated construction costs to be incurred to completion. Provision for the total anticipated loss on construction projects will be made in the accounts as soon as the possibility of loss is ascertained.

Revenues from rental and service

Revenues from rental and service are recognised on a straight-line basis over the lease term.

Management fee income

Management fee income is recognised on an accrual basis in accordance with the terms and conditions specified in the contracts.

Interest income

Interest income is recognised on an accrual basis based on the effective interest rate.

Dividends

Dividends are recognised when the right to receive the dividends is established.

5.2 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

5.3 Trade receivables

Trade receivables are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experiences and analysis of debt aging.

5.4 Inventories

Inventories are valued at the lower of average cost and net realisable value.

5.5 Investments

- a) Investments in securities held for trading are stated at fair value. Changes in the fair value of these securities are recorded in the income statement.
- b) Investments in associates are accounted for in the consolidated financial statements using the equity method.
- c) Investments in subsidiaries and associates are accounted for in the separate financial statements using the cost method.

The fair value of unit trusts is determined from their net asset value.

The weighted average method is used for computation of the cost of investments.

On disposal of an investment, the difference between net disposal proceeds and the carrying amount of the investment is recognised in the income statement.

5.6 Property, plant and equipment and depreciation

Land is stated at revalued amount. Plant and equipment are stated at cost or revalued amount less accumulated depreciation and allowance for loss on impairment of assets (if any).

Land, factory buildings, machinery and factory equipment are initially recorded at cost on the acquisition date, and subsequently revalued by an independent professional appraiser to their fair values. Revaluations are made with sufficient regularity to ensure that the carrying amount does not differ materially from fair value at the end of reporting period.

Differences arising from the revaluation are dealt with in the financial statements as follows.

- When an asset's carrying amount is increased as a result of a revaluation of the Group's assets, the increase is credited directly to the other comprehensive income and the cumulative increase is recognised in equity under the heading of "Revaluation surplus on assets" in other components of shareholders' equity. However, a revaluation increase is recognised as income to the extent that it reverses a revaluation decrease in respect of the same asset previously recognised as an expense.
- When an asset's carrying amount is decreased as a result of a revaluation of the Group's assets, the decrease is recognised in the income statement. However, the revaluation decrease is charged to the other comprehensive income to the extent that it does not exceed an amount already held in respect of the same asset in "Revaluation surplus on assets" in other components of shareholders' equity.

Depreciation of plant and equipment is calculated by reference to their costs or the revalued amount, on the straight-line basis over the following estimated useful lives.

Building improvements	5 - 30	years
Buildings	20 - 40	years
Machinery and equipment	5 - 20	years
Office furniture, fixture and equipment	3 - 5	years
Motor vehicles	5	years

Depreciation is included in determining income.

No depreciation is provided on land and construction in progress.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

5.7 Intangible assets and amortisation

Intangible assets acquired are recognised at cost on the date of acquisition. Following the initial recognition, the intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses (if any).

Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to the income statement.

The useful lives of computer software are 5 and 10 years.

5.8 Related party transactions

Related parties comprise enterprises and individuals that control, or are controlled by, the Company, whether directly or indirectly, or which are under common control with the Company.

They also include associated companies and individuals which directly or indirectly own a voting interest in the Company that gives them significant influence over the Company, key management personnel, directors and officers with authority in the planning and direction of the Company's operations.

5.9 Long-term leases

Leases of property, plant or equipment which transfer substantially all the risks and rewards of ownership to the lessee are classified as finance leases. Finance leases are capitalised at the lower of the fair value of the leased assets and the present value of the minimum lease payments. The outstanding rental obligations, net of finance charges, are included in long-term payables, while the interest element is charged to the income statement over the lease period. The asset acquired under finance leases is depreciated over the useful life of the asset.

Leases of property, plant or equipment which do not transfer substantially all the risks and rewards of ownership are classified as operating leases. Operating lease payments are recognised as an expense in the income statement on a straight-line basis over the lease term.

5.10 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency. Items of each entity included in the consolidated financial statements are measured using the functional currency of that entity.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

5.11 Impairment of assets

At the end of each reporting period, the Group performs impairment reviews in respect of the property, plant and equipment and intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount.

An impairment loss is recognised in the income statement. However in cases where property, plant and equipment were previously revalued and the revaluation was taken to equity, a part of such impairment is recognised in equity up to the amount of the previous revaluation.

In the assessment of asset impairment if there is any indication that previously recognised impairment losses may no longer exist or may have decreased, the Group estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The increased carrying amount of the asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at a revalued amount, in which case the reversal, which exceeds the carrying amount that would have been determined, is treated as a revaluation increase

5.12 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits and other long-term employee benefits

Defined contribution plans

The Company, its subsidiaries and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Group. The fund's assets are held in a separate trust fund and the Group's contributions are recognised as expenses when incurred.

Defined benefit plans and other long-term employee benefits

The Group has obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Group treats these severance payment obligations as a defined benefit plan. In addition, the Group provides other long-term employee benefit plan, such as long-service award.

The obligation under the defined benefit plan and other employee benefits plans are determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from post-employment benefits plan are recognised immediately in other comprehensive income.

Actuarial gains and losses arising from other long-term benefits plan are recognised immediately in profit and loss.

5.13 Advances received for renovation of gasoline stations

The subsidiary records financial support for renovation of gasoline stations as advances received and recognised by net of depreciation expenses of gasoline stations in the income statement on a straight-line basis over the period of the related agreements.

5.14 Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

5.15 Free products

Subsidiaries have distributed free products to customers who making purchases of goods under specified conditions. The subsidiaries record cost of free products as cost of sales when goods are delivered.

5.16 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognises deferred tax liabilities for all taxable temporary differences while they recognise deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

5.17 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

Level 1 - Use of quoted market prices in an observable active market for such assets or liabilities

Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly

Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

6. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows.

Allowance for doubtful debts

In determining an allowance for doubtful debts, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the prevailing economic condition.

Impairment of investments

In determining an allowance for impairment of investments in subsidiaries, investments in associates and other long-term investments, the management needs to prepare projections of the cash flows expected to be generated by the investments in the future, and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Property, plant and equipment and depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review estimate useful lives and residual values when there are any changes.

The Group measures land, factory buildings, machinery and factory equipment at revalued amounts. Such amounts are determined by the independent valuer using the market approach for land and the orderly liquidation value approach for factory buildings, machinery and factory equipment. The valuation involves certain assumptions and estimates as described in Note 18 to the financial statements.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plan and other long-term employee benefits

The obligations under the defined benefit plan and other long-term employee benefit plan are determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

Litigation

The Group had outstanding litigation and several commercial disputes. The management has used judgement to assess of the results of the litigation and believes that there will be no additional loss incurred from that recorded as at 31 December 2019. A summary of outstanding litigation and commercial deputies are discussed in Note 36.5.

7. Cash and cash equivalents

Transfer pricing policy for significant business transactions with related parties are summarised below.

Transactions	Transfer pricing policy
Sales	The selling price is set out based on the market price
Dividend income	As declared
Interest income	2.92% - 5.00% per annum
Other income	The price is set out based on the market price
Land and office rental expenses	The price is set out based on the market price
Other expenses	The price is set out based on the market price
Consulting expenses	Contract price

Significant agreement with related party

Guarantee agreement

In 2016, a subsidiary entered into an agreement with its subsidiary to guarantee bank credit facility of its subsidiary totaling Baht 10 million. The guarantee is effective as long as the underlying obligations have not been discharged by the subsidiary. No guarantee fee was charged for the guarantee.

As at 31 December 2019 and 2018, the balances of the accounts between the Group and those related parties are as follows.

Less: Allowance for doubtful debts	(4,500)	-	-	(4,500)
Net	145,000	-	-	145,000

As at 31 December 2019, loans to subsidiaries and associate totaling Baht 664 million are in the form of short-term promissory notes (2018: loans totaling Baht 564 million were in the form of short-term promissory notes and loan agreement), carrying interest at rates of 2.92% - 5.00% per annum (2018: 2.95% - 5.00% per annum). Short-term loans to Pure Biodiesel Co., Ltd. were guaranteed by the mortgage of land, building, machinery and oil depots. However, as at 31 December 2019 and 2018, the Company reclassified loans of Baht 145 million to Pure Thai Energy Co., Ltd. as long-term loans since the Company will not call the loans within one year.

The Company set aside allowance for doubtful debts for the loans to Pure Biodiesel Co., Ltd. (PBC) for the whole amount, as the Company expects that the assets of the subsidiary will not be sufficient to repay the loans. On 1 October 2013, the Company ceased recognising the interest income on the loans to PBC. However, during the year 2019, PBC paid interest expenses to the Company amounting to Baht 18 million (2018: Baht 17 million) since it has rental income from the lease of land, building, machinery and oil depots.

The loan to KP Energy Group Co., Ltd. (KPEG) was unsecured loan carrying interest at a rate of 5.00% per annum. The Company set aside allowance for doubtful debts for the full amount as the Company expects that the assets of KPEG will not be sufficient to repay the loan. On 1 January 2015, the Company ceased recognising the interest income on the loan to this company.

Management benefit expenses

During the years ended 31 December 2019 and 2018, the Group had employee benefit expenses payable to their directors and management as below.

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Short-term employee benefits	11,723	9,680	8,116	5,648
Post-employment benefits	859	439	270	266
Total	12,582	10,119	8,386	5,914

During the year 2019, the Group arranged for an independent professional valuer to appraise the value of certain refinery assets on an asset-by-asset basis. The revaluation was concluded on 31 December 2019 and the basis of the revaluation was as follows.

- a) Land was revalued using the market approach. The fair value of the land was at the average of Baht 9 million per rai.
- b) Factory buildings, machinery and factory equipment were revalued using the orderly liquidation value approach. The orderly liquidation value is the amount expected to be obtained from finding buyers for the assets on a piecemeal basis, given the condition and location of the assets at that time and the applicable conditions. It assumes there is a reasonable period of time within which the owner is forced to sell, that the assets are sold through an intermediary or offered to the buyer for other uses, and that the buyer will pay all expenses.

The reappraised value of the land was Baht 8.6 million (separate financial statements: Baht 6.5 million) higher than the value per the previous revaluation conducted in 2018. The Group recognised the increase in asset values in shareholders' equity under the heading of "Revaluation surplus on assets".

In addition, the reappraised values of the buildings and equipment were Baht 1.5 million (2018: nil) lower than their net book values as presented in the consolidated financial statements (separate financial statements: Baht 1.5 million, 2018: nil). The Group recognised the loss on impairment of assets in the income statement for the same amount.

Had the land, factory buildings, machinery and factory equipment been carried in the financial statements on a historical cost basis, their net book values as of 31 December 2019 and 2018 would have been as follows.

(Unit: Thousand Baht)

	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Land	141,286	141,286	105,770	105,770
Factory buildings and improvements	16,905	17,654	10,396	10,798
Machinery and factory equipment	114,428	125,425	36,647	40,758

As at 31 December 2018, the Group had vehicles with net book values of Baht 0.1 million (2019: nil) and in the separate financial statements of Baht 0.1 million (2019: nil), which were acquired under finance lease agreements.

A subsidiary has mortgaged land, buildings, machinery and oil depots with a total book value as at 31 December 2019 of Baht 102 million (2018: Baht 101 million), as collateral to secure short-term loans received from the Company, as discussed in Note 10 to the financial statements.

As at 31 December 2019, certain items of plant and equipment were fully depreciated but are still in use. The gross carrying amount before deducting accumulated depreciation and allowance for impairment loss of those assets amounted to Baht 181 million (2018: Baht 176 million) in the consolidated financial statements and Baht 30 million (2018: Baht 29 million) in the separate financial statements.

	2019	2018	2019	2018
The compensation for loss	26,711	26,711	26,711	26,711
Withholding tax awaiting refund	21,423	14,387	613	269
Prepaid rental and fees for land utilisation	125,279	119,560	-	-
Deposits	3,018	2,677	207	207
Total	<u>176,431</u>	<u>163,335</u>	<u>27,531</u>	<u>27,187</u>

Prepaid rental and fees for land utilisation are cash paid in advance that a subsidiary pays to landlords for the operation of gasoline station business.

The compensation for loss is the compensation receivable because, in the third quarter of 2006, a raw material supplier delivered raw materials of a quality different to that specified in the relevant purchase agreement. Therefore, the Company had additional cost for product improvement and compensation amounting to Baht 136 million. Based on the negotiation with the supplier, the Company will receive compensation of Baht 53 million. The partial balance of Baht 26 million was paid by a credit note in November 2006 and the supplier will inform the Company of the method in payment for the remaining Baht 27 million later.

On 2 October - 20 November 2010, the supplier delivered raw materials of a quality difference to that specified in the relevant purchase agreement again. As a result, the Company had additional cost of raw materials quality improvement and other damages totaling Baht 53 million. The Company requested the compensation to the supplier but could not negotiate. Therefore, on 9 November 2016, the Company filed a dispute to the Arbitration Office (Dispute Black Case No. 117/2559), requesting the supplier to pay the compensation of raw materials quality improvement which the supplier sent raw materials different from purchase agreement in 2006 and during October and November 2010 amounting to Baht 27 million and Baht 53 million, respectively, plus interest 7.5% per annum. The total compensation is Baht 117 million. Subsequently, in January 2020, the Company received a copy of an arbitration award dated 26 December 2019, whereby the Arbitral Tribunal had unanimously resolved to order the supplier to compensate the Company for damages suffered during the years 2006 and 2010, amounting to Baht 27 million and Baht 37 million, respectively, and to pay interest at a rate of 7.5% per annum from 13 September 2016 and 9 November 2011, respectively, until the supplier makes full payment to the Company. However, the supplier can file a petition to revoke the arbitral award with a court with jurisdiction within 90 days from the date of receiving the copy of the award.

21. Bank overdrafts

As at 31 December 2018, bank overdrafts of a subsidiary company are secured by a fixed deposit account of Baht 6 million, together with interest. The interest on the overdrafts is charged to the fixed deposit interest rate (F/D) plus 1.25% per annum for the first Baht 6 million and at the MOR minus 0.25% per annum for amount in the excess of Baht 6 million.

22. Trade and other payables

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Trade payables - unrelated parties	1,780,924	1,747,441	1,518,109	1,518,109
Other payables - related parties	119	239	23	42
Other payables - unrelated parties	35,450	37,189	1,464	1,445
Accrued expenses	28,031	20,527	2,032	1,183
Retention payables	2,295	1,778	-	-
Total	<u>1,846,819</u>	<u>1,807,174</u>	<u>1,521,628</u>	<u>1,520,779</u>

Trade payables - unrelated parties include liabilities under the commercial dispute and outstanding litigation with its major raw material supplier. Therefore, the Company has exercised lien over the last payment for condensate residue, amounting to Baht 1,518 million, as discussed in Note 36.5 to the financial statements.

23. Short-term loans from unrelated parties

As at 31 December 2019, these represented promissory notes which the subsidiary issued to individuals. The loans carried interest at the rates of 1.30% - 1.55% per annum (2018: 1.55% - 1.58% per annum) and are repayable within one year.

24. Advances received for renovation of gasoline stations

	(Unit: Thousand Baht)	
	Consolidated	
	financial statements	
	2019	2018
Advances received for renovation of gasoline stations		
at beginning of year	289,545	78,755
Increase during the year	144,000	226,000
Less: Amortisation for the year	<u>(32,525)</u>	<u>(15,210)</u>
Advances received for renovation of gasoline stations		
at end of year	401,020	289,545
Less: Current portion	<u>(37,098)</u>	<u>(29,933)</u>
Advances received for renovation of gasoline stations, net of current portion	<u>363,922</u>	<u>259,612</u>

25. Other current liabilities

(Unit: Thousand Baht)

	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Advances received from customers	8,758	5,416	-	-
Others	5,621	4,738	169	189
Total	14,379	10,154	169	189

26. Provision for long-term employee benefits

Provision for long-term employee benefits as at 31 December 2019 and 2018, which represents compensation payable to employees after they retire from the company, was as follows.

(Unit: Thousand Baht)

	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Provisions for long-term employee benefits at beginning of year	12,148	9,892	2,393	1,835
Included in profit or loss:				
Current service cost	1,801	1,685	482	502
Interest cost	422	341	63	-
Past service cost	2,346	-	-	56
Reversal of provision for long-term employee benefits	(1,969)	-	-	-
Included in other comprehensive income:				
Actuarial (gain) loss arising from				
Demographic assumptions changes	-	(1,797)	-	-
Financial assumptions changes	1,686	(240)	259	-
Experience adjustments	-	2,267	-	-
Provisions for long-term employee benefits at end of year	16,434	12,148	3,197	2,393

On 5 April 2019, The Labour Protection Act (No. 7) B.E. 2562 was announced in the Royal Gazette. This stipulates additional legal severance pay rates for employees who have worked for an uninterrupted period of twenty years or more, with such employees entitled to receive not less than 400 days' compensation at the latest wage rate. The law was effective from 5 May 2019. This change is considered a post-employment benefits plan amendment and the Group has additional long-term employee benefit liabilities of Baht 2.3 million (separate financial statements: nil) as a result. The Group reflects the effect of the change by recognising past services costs as expenses in the income statement of the current year.

The Group expects to pay Baht 0.30 million of long-term employee benefits during the next year (separate financial statements: nil) (2018: Baht 0.38 million, separate financial statements: nil).

As at 31 December 2019, the weighted average duration of the liabilities for long-term employee benefit is approximately 9 - 14 years (separate financial statements: 9 years) (2018: 10 - 15 years, separate financial statements: 10 years).

Key actuarial assumptions used for the valuation are as follows.

	(Unit: % per annum)			
	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Discount rate	1.55 - 2.18	2.10 - 3.08	1.55	2.55
Future salary increase rate	3.00 - 5.00	3.00 - 5.00	5.00	5.00

The result of sensitivity analysis for significant assumptions that affect the present value of the long-term employee benefit obligation as at 31 December 2019 and 2018 are summarised below:

	(Unit: Thousand Baht)			
	As at 31 December 2019			
	Consolidated		Separate	
	financial statements		financial statements	
	Rate increase	Rate decrease	Rate increase	Rate decrease
Increase or decrease 0.5% in discount rate	(880)	913	(133)	89
Increase or decrease 1% in future salary increase rate	1,931	(1,669)	257	(234)

(Unit: Thousand Baht)

	As at 31 December 2018			
	Consolidated		Separate	
	financial statements		financial statements	
	Rate increase	Rate decrease	Rate increase	Rate decrease
Increase or decrease 0.5% in discount rate	(694)	745	(111)	117
Increase or decrease 1% in future salary increase rate	1,544	(998)	242	(152)

27. Statutory reserve

Pursuant to Section 116 of the Public Limited Companies Act B.E. 2535, the Company is required to set aside a statutory reserve at least 5% of its net profit after deducting accumulated deficit brought forward (if any), until the reserve reaches 10% of the registered capital. The statutory reserve is not available for dividend distribution.

Under the Civil and Commercial Code, the subsidiaries are required to set aside a statutory reserve equal to at least 5% of its net profit each time the subsidiaries pay out a dividend, until such reserve reaches 10% of their registered share capital. The statutory reserve is not available for dividend distribution.

28. Revaluation surplus

This represents surplus arising from revaluation of land. Movements in the revaluation surplus account, net of income tax, during the years ended 31 December 2019 and 2018 are summarised below.

(Unit: Thousand Baht)

	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Balance - beginning of year	199,436	154,556	150,073	115,753
Add: Revaluation of assets				
during the year	8,600	56,100	6,500	42,900
Less: Effect of income tax				
from revaluation	(1,720)	(11,220)	(1,300)	(8,580)
Balance - end of year	<u>206,316</u>	<u>199,436</u>	<u>155,273</u>	<u>150,073</u>

The revaluation surplus can neither be offset against deficit nor used for dividend payment.

29. Other income

(Unit: Thousand Baht)

	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Management fee income	1,080	1,320	-	-
Rental income	19,666	14,968	-	-
Dividend income	-	-	53,179	31,235
Gain on sales of equipment and intangible assets	1,521	3,400	1,630	-
Gain on sales of investment in associate	367,856	-	199,887	-
Interest income	6,959	3,387	27,033	21,707
Other income	9,740	6,449	9,989	6,383
Total	406,822	29,524	291,718	59,325

The subsidiary has rental income from the lease of land, building, machinery and oil depots. However, the subsidiary recorded such assets under the heading "Property, plant and equipment" instead of "Investment properties" because the main objective is to sell such assets.

30. Expenses by nature

Significant expenses classified by nature are as follows.

(Unit: Thousand Baht)

	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Salaries, wages and other employee benefits	182,259	116,690	11,572	9,935
Long-term employee benefits	2,600	2,026	545	558
Depreciation and amortisation	55,996	43,069	4,555	8,888
Changes in finished goods	(8,847)	(15,080)	-	-
Cost of merchandise inventories and services	4,022,606	3,087,676	-	-
Loss on impairment of buildings and equipment (reversal)	1,490	(352)	1,490	(352)
Reversal of loss on impairment of investment in subsidiary (reversal)	-	-	1,245	(4,804)

31. Income tax

Income tax revenue for the years ended 31 December 2019 and 2018 are made up as follows.

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Current income tax:				
Current income tax charge	-	-	-	-
Deferred tax:

Income tax revenue reported in the income statement	<u>(18)</u>	<u>(12,680)</u>	<u>-</u>	<u>-</u>

The components of deferred tax assets and deferred tax liabilities are as follows.

	(Unit: Thousand Baht)			
	Statements of financial position			
	Consolidated financial statements		Separate financial statements	
	31 December 2019	31 December 2018	31 December 2019	31 December 2018
Deferred tax assets				
Allowance for doubtful debts	3,325	3,358	-	-
Allowance for diminution in value of inventories	2,043	1,613	-	-
Provision for long-term employee benefits	2,647	1,951	-	-
Unused tax loss	9,392	11,243	-	-
Others	1,906	845	-	-
Total	<u>19,313</u>	<u>19,010</u>	<u>-</u>	<u>-</u>
Deferred tax liabilities				
Revaluation surplus on assets	51,579	49,859	38,818	37,518
Total	<u>51,579</u>	<u>49,859</u>	<u>38,818</u>	<u>37,518</u>

As at 31 December 2019, the Group has deductible temporary differences and unused tax losses totaling Baht 409 million (2018: Baht 1,252 million) per the consolidated financial statements and Baht 212 million (2018: Baht 833 million) per the separate financial statements. No deferred tax assets have been recognised on these amounts as the Group believes future taxable profits may not be sufficient to allow utilisation of the temporary differences and unused tax losses. The unused tax losses amounting to Baht 59 million per the consolidated financial statements and Baht 19 million per the separate financial statements will expire by 2024.

32. Discontinued operation

Details of discontinued operations for the years ended 31 December 2019 and 2018 are presented below.

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Revenues	-	-	-	-
Expenses

Total expenses	(4,712)	7,462	(4,712)	7,512
Loss for the year from discontinued operation	(4,712)	(7,462)	(4,712)	(7,512)

(Unit: Baht)

Earnings per share:

Loss per share for the year from discontinued operation	(0.0036)	(0.0057)	(0.0036)	(0.0058)
	(Unit: Thousand shares)			
Weighted average number of ordinary shares	1,304,664	1,304,664	1,304,664	1,304,664

The net cash flows incurred by discontinued operation for 2019 and 2018 are as follows.

	(Unit: Thousand Baht)			
	Consolidated		Separate	
	financial statements		financial statements	
	2019	2018	2019	2018
Operating activities	-	-	-	-
Investing activities	-	300	-	250
Financing activities	-	-	-	-
Net cash flows from discontinued operation	-	300	-	250

33. Basic earnings per share

Basic earnings per share is calculated by dividing profit (loss) for the year attributable to equity holders of the Company (excluding other comprehensive income) by the weighted average number of ordinary shares in issue during the year.

34. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance.

For management purposes, the Group is organised into business units based on its products and services and have two reportable segments as follows.

- 1) Energy segment: Fuel and gas retailing through a network of gas stations, distribution and maintenance of gas station equipment and rental of oil depot and port business.
- 2) Real estate segment: Real estate development for sale and for rent.

No operating segments have been aggregated to form the above reportable operating segments.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and on a basis consistent with that used to measure operating profit or loss in the financial statements.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The Group operates in Thailand only. As a result, all the revenues as reflected in these financial statements pertain exclusively to this geographical reportable segment.

For the years 2019 and 2018, the Group has no major customer with revenue of 10% or more of an entity's revenues.

The following tables present revenues and profit (loss) information regarding the Group's operating segments for the years ended 31 December 2019 and 2018.

(Unit: Million Baht)

	For the years ended 31 December							
	Energy segment		Real estate segment		Adjustments and eliminations		Consolidated financial statements

35. Provident fund

The Company, its subsidiaries and their employees have jointly established a provident fund in accordance with the Provident Fund Act B.E. 2530. Both the Company or its subsidiaries and employees contributed to the fund monthly at the rates of 5% - 10% of basic salary. The fund, which is managed by Aberdeen Standard Asset Management (Thailand) Limited, will be paid to employees upon termination in accordance with the fund rules. The contributions for the years 2019 and 2018 amounting to Baht 2.9 million were recognised as expenses.

36. Commitments and contingent liabilities

36.1 Capital commitments

As at 31 December 2019, capital commitments of a subsidiary totaling Baht 23.1 million were in respect of the renovation of gas stations (2018: Baht 3.0 million).

36.2 Operating lease, service and research and development agreement commitments

The Group entered into several operating lease and service agreements in respect of the leases of land, building, oil depots, gas stations and equipment. The terms of the agreements are generally between 1 and 30 years, and a research and development agreement with a term of 3 years.

Future minimum payments required under these agreements were as follows.

(Unit: Million Baht)

Payable within	Consolidated financial statements		Separate financial statements	
	2019	2018	2019	2018
In up to 1 year	33	29	7	5
In over 1 and up to 5 years	192	168	-	4
In over 5 years	562	417	-	-

36.3 Long-term purchase and sale commitments

- a) In November 2007, a subsidiary (Pure Biodiesel Co., Ltd.) (PBC) entered into an agreement with Global Power Synergy Co., Ltd. (GPSC) to purchase steam in a quantity and at a price stipulated in the agreement, which is for a period of 15 years commencing from the facility commercial operation date or 1 October 2008. The agreement can be extended for another 5 years.

On 26 December 2011, the subsidiary entered into a memorandum with GPSC, whereby GPSC will construct a pipe rack and bridge to install a steam pipeline, with a construction price of Baht 58 million, and will compensate the subsidiary an amount of Baht 23 million, for the impact of its inability to supply steam as agreed. This is treated as part of the delay penalty and deducted from construction cost. The construction cost and all interest are to be paid to GPSC on a monthly basis, beginning on the first of the 37th month and to be completed within 72 months after the date GPSC commences supplying steam. The construction cost carries interest at a rate equal to MLR of a bank.

In March 2017, GPSC sent a letter notifying of the cancellation of steam purchase agreement and the memorandum regarding installation of a steam pipeline, on the grounds that PBC had breached certain conditions of the agreement, and its claim of certain damages from PBC. PBC subsequently sent a letter refusing to pay the damages.

- b) On 6 October 2017, a meeting of the Company's Board of Directors passed a resolution granting approval for a subsidiary running a retail and gasoline service station business to change from operating its service stations under the "Pure" brand to operating them under the "Esso" brand, in order to improve efficiency and the strength of its gasoline retail sales business and to support future business expansion.

As at 31 December 2019, the subsidiary has signed up to gasoline trading agreements with Esso (Thailand) Public Company Limited and was granted the right to use the "Esso" trademark at 66 gasoline stations (2018: 58 gasoline stations) for at least 10 years from the date that each station is opened under the "Esso" trademark. The subsidiary continues to be the operator of these gasoline stations. Under the agreements, the subsidiary has to order fuel in quantities and at prices as specified in the agreements throughout the contractual period.

36.4 Guarantees

- a) As at 31 December 2019, there were outstanding bank guarantees of Baht 227 million (2018: Baht 207 million) issued by banks on behalf of the Group in respect of certain performance bonds as required in the normal course of business. These included letters of guarantee amounting to Baht 225 million (2018: Baht 205 million) to guarantee payments due to creditors and Baht 2 million (2018: Baht 2 million) to guarantee electricity use, among others.
- b) As at 31 December 2019 and 2018, a subsidiary has guaranteed bank credit facilities of its subsidiary amounting to Baht 10 million.

36.5 Litigation and commercial dispute

On 8 August 1995, the Company entered into a purchase agreement with PTT Public Company Limited (PTT) to purchase condensate residue raw materials that are produced by PTT Global Chemical Public Company Limited (PTTGC) in a quantity and at a price stipulated in the agreement. The agreement is on an evergreen basis, meaning that there is no specified termination date, and after the primary period of 15 years ends in 2012 it automatically renews for a second period.

On 30 September 2009, PTT sent a letter informing the Company of the cancellation of the condensate residue raw materials purchase agreement, and requesting termination of the agreement upon completion of the 15-year term (Primary period) in 2012 even though the Company did not breach the agreement and the cancellation was contrary to the purpose of the agreement. The Company and the Company's legal advisor are of the opinion that the agreement cannot be terminated since it is a long-term reciprocal agreement. On 3 December 2009, the Company therefore submitted a petition to the Arbitration Office (Black Dispute No. 114/2552) and on 27 August 2010, the Company lodged a lawsuit against PTT and PTTGC with the Civil Court (Black Case No. 3162/2553), demanding PTT and PTTGC should pay compensation to the Company from cancellation of the agreement totaling Baht 29,368 million and Baht 9,382 million, respectively. The Civil Court has ordered the ongoing litigation (Black Case No. 3162/2553) be temporarily struck off in order to await the decision of the Arbitration Office.

According to PTT's breach of agreement, and the Company exercising its rights to undertake court action and arbitration in order to pursue these claims. Due to PTT did not deliver condensate residue raw material to the Company as stated in contract. Therefore, the Company has exercised lien over the last payment for condensate residue, amounting to Baht 1,518 million. PTT had submitted the dispute to the Arbitration Office (Black Dispute No. 78/2555), requesting the Company to pay principal together with interest totaling Baht 1,555 million to PTT.

In April 2016, the Company received a copy of an arbitration award (Black Dispute No. 114/2552) dated 25 March 2016, pursuant to which the arbitral tribunal rendered an award by a majority vote whereby PTT was to pay damages for the unlawful termination of its agreement with the Company in the amount of Baht 390 million per annum starting from 1 February 2012 until the date on which the arbitral tribunal rendered the arbitration award (25 March 2016), together with 7.5% interest per annum on such amount of damages calculated on the date on which the arbitral tribunal rendered the arbitration award until PTT makes payment in full to the Company. However, PTT petitioned the court to revoke the award on 30 June 2016 (Black Case No. Por.3016/2559). Later, on 16 December 2016, the Company filed a petition with the Civil Court to seek enforcement of the above arbitration award (Black Case No. Por.6000/2559). The Civil Court has ordered the combination of Black Case No. Por.6000/2559 with Black Case No. Por.3016/2559. In September 2019, the Civil Court ordered PTT to pay damages to the Company in accordance with the arbitral award and dismissed the petition of PTT. The Company has filed a petition for enforcement in accordance with the judgement of the Civil Court. At present, PTT is in the process of filing a petition for an extension of the period to file an appeal with the Supreme Court.

In May 2017, the Company received a copy of an arbitration award (Black Dispute No. 78/2555) dated 27 April 2017, pursuant to which the arbitral tribunal rendered an award to order the Company to make a final payment for condensate residue to PTT of Baht 1,555 million, together with interest at 9.375% per annum on principal of Baht 1,518 million, from the date on which the dispute was submitted to arbitration (18 May 2012) until the Company makes payment in full to PTT. However, the Company does not agree with the arbitration award. On 25 July 2017, the Company exercised its legal right to file a petition with the Civil Court to revoke the award (Black Case No. Por.3492/2560). Later, in September 2017, the Company received a copy of a petition filed by PTT with the Civil Court seeking to enforce the award (Black Case No. Por.3789/2560). The Civil Court has ordered the combination of Black Case No. Por.3789/2560 with Black Case No. Por. 3492/2560. In March 2019, the Civil Court ordered the revocation of the arbitration award and dismissed the petition of PTT. However, PTT disagreed with the judgement and exercised its legal right to file an appeal with the Supreme Court in August 2019.

37. Fair value hierarchy

As at 31 December 2019 and 2018, the Group had the assets that were measured or disclosed at fair value using different levels of inputs as follows:

(Unit: Million Baht)

	Consolidated financial statements					
	Level 1		Level 2		Total	
	2019	2018	2019	2018	2019	2018
Assets measured at fair value						
Current investments						
Investment units in mutual funds	425	185	-	-	425	185
Property, plant and equipment	-	-	531	534	531	534

(Unit: Million Baht)

	Separate financial statements					
	Level 1		Level 2		Total	
	2019	2018	2019	2018	2019	2018
Assets measured at fair value						
Current investments						
Investment units in mutual funds	421	170	-	-	421	170
Property, plant and equipment	-	-	347	345	347	345

38. Financial instruments

38.1 Financial risk management

The Group's financial instruments, as defined under Thai Accounting Standard No. 107 "Financial Instruments: Disclosure and Presentations", principally comprise cash and cash equivalents, accounts receivable and payable, loans receivable and payable and investments. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Group is exposed to credit risk primarily with respect to trade receivables, loans receivable and other receivables. The Group manages the risk by adopting appropriate credit control policies and procedures and therefore do not expect to incur material financial losses. In addition, the Group does not have high concentration of credit risk since they have a large customer base. The maximum exposure to credit risk is limited to the carrying amounts of trade receivables, loans receivable and other receivables as stated in the statement of financial position.

Interest rate risk

The Group's exposures to interest rate risk relate primarily to their deposits at banks, loans receivable and loans payable with interest. However, since most of the Group's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate, the interest rate risk is expected to be minimal.

Significant financial assets and liabilities classified by type of interest rates are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

(Unit: Million Baht)

Consolidated financial statements as at 31 December 2019

	Fixed interest rates		Floating		Total	Effective interest rate (% p.a.)
	Within 1 year	1-5 years	interest rate	Non-interest bearing

38.2 Fair values of financial instruments

Since the majority of the Group's financial instruments are short-term in nature, loans receivable and payable bear interest rates which are close to the market rate, their fair values are not expected to be materially different from the amounts presented in the statement of financial position.

A fair value is the amount for which an asset can be exchanged or a liability settled between knowledgeable, willing parties in an arm's length transaction. The fair value is determined by reference to the market price of the financial instrument or by using an appropriate valuation technique, depending on the nature of the instrument.

39. Capital management

The primary objective of the Company's capital management is to ensure that it has appropriate capital structure in order to support its business and maximise shareholder value. As at 31 December 2019, the Group's debt-to-equity ratio was 1.35:1 (2018: 1.62:1) and the Company's was 1.15:1 (2018: 1.41:1).

40. Events after the reporting period

On 19 February 2020, the meeting of the Company's Board of Directors passed a resolution to transfer of legal reserve in the amount of Baht 80,304,817 and premium on ordinary shares in the amount of Baht 335,966,599 to compensate the deficits of the Company.

41. Approval of financial statements

These financial statements were authorised for issue by the Company's Board of Directors on 19 February 2020.
