

No. RPC/HO-SET/ELCID-0012/10

31<sup>st</sup> May 2010

Subject: Plant Shutdown for Scheduled Repair and Maintenance

To President  
The Stock Exchange of Thailand

Rayong Purifier Public Company Limited (RPC) would like to inform that our refinery will be shutdown for regular scheduled repair and maintenance for 25 days, starting June 1<sup>st</sup>, 2010 until June 25<sup>th</sup>, 2010. After the start-up, the efficiency of the refinery will be improved.

This is a scheduled plant shutdown (turn-around) in accordance with our repair and maintenance plan. In order to supply our customers during this shutdown period, apart from building up the finished products in-house, we are also committed to purchase more finished products from various suppliers. Since we are well prepared and notified our customers and all related parties in advance, we are certain that this shutdown will not disturb either our business operation or overall performance of the company.

Yours Sincerely,

(Siraporn Krishnakan)  
Assistant to Managing Director
